Additional claim made to the International Criminal Court

On the 20th of April this year we the undersigned, issued a 27-page 'Request for Investigation' (Request), to the International Criminal Court (ICC) at The Hague, alleging that certain members of the UK government and its advisors, were complicit in genocide, crimes against humanity and breaches of the Nuremberg Code.

On the 28th of April 2021 we received a formal acknowledgement from the ICC and were assigned a case number (143/21). Unlike some other countries, our Request has not been rejected within a few weeks of submission, but neither has it been formally accepted and so the status of our Request has effectively been in limbo for the past few months.

Notwithstanding the above, we have continued to collect and review any new research and evidence that could be used in our ICC claim should it be accepted for investigation and we have also been actively establishing connections with lawyers and research scientists from around the world.

Given the very substantial amount of new evidence and information that has come to light since we originally issued our Request in April, we made the decision to issue a further claim to the ICC. We are very pleased to have secured sworn affidavits from leading experts, who are in the first instance: the research scientist and nuclear cardiologist Dr Richard M. Fleming, the Nobel Laureate virologist Professor Luc A. Montagnier and Dr Kevin W. McCairn, a neuroscientist and expert on neurological disease.

We now have compelling evidence that the SARS-CoV-2 virus and the COVID-19 'vaccines' are deliberately engineered bioweapons which have been released in two phases on the unsuspecting peoples of the world. We are particularly pleased that we have kindly been given exclusive access to an advance copy of Dr Richard M. Fleming's new book, *Is COVID-19 a Bioweapon? A Scientific and Forensic Investigation*, which we believe will provide incontrovertible evidence to the ICC of the bioweapon nature of the SARS-CoV-2 virus and the so-called COVID-19 vaccines.

We have also been in discussions with lawyers from several other countries, about the possibility of amalgamating in order to submit a combined Request to the ICC. We are pleased to announce that we have now been joined by lawyers who have filed ICC Requests from Slovakia, France and the Czech Republic and on the 12th of August 2021, we sent a letter to the ICC requesting that we be allowed to submit a joint claim. At the same time we also submitted preliminary evidence for the allegations which are common to us all, whilst asking to reserve the right to have investigated by the ICC, the claims specific to our individual countries, eg. re the UK, we have requested an examination of the genocide of the elderly that took place in care homes and hospitals and the inappropriate use of midazolam and morphine. We have also requested in our joint claim, that there be an immediate moratorium on the entire COVID-19 'vaccine' program in all four of our countries and an end to the testing of asymptomatic people.

We now await the decision of the ICC as to whether a) they will allow in principle a joint claim by several countries to be made and b) they will accept our joint 'Request for Investigation'.

Given the extremely serious nature of the situation that pertains in all four of our countries with regards to escalating medical apartheid, the loss of basic freedoms and rights and the ever-increasing, very high number of deaths and serious adverse events suffered by recipients of COVID-19 'vaccines', we have brought to the attention of the ICC the urgent need for the Court to act swiftly and without further delay and to this end we have requested a meeting at The Hague as soon as is practicable.

Whilst we await a response from the ICC, we continue to be in discussions with lawyers in other countries who have not yet filed their individual Requests to the ICC, but who have indicated they wish to join us and we intend to give them our every assistance.

We will issue another update as and when we have further news. In the meantime, we thank each and every person who is helping in the fight for truth, justice and freedom and indeed for the very future of humanity, against the forces of immense evil.

"But let justice roll down like waters, and righteousness like an ever-flowing stream".
