About the Authors – Team Enigma

- We are a group of independent researchers with experience in:
 - Pharmaceutical R&D and manufacturing
 - Clinical trials
 - Pharma industry regulations
 - Data analyses and modeling
 - Statistics
- Located worldwide, conducting independent analyses of the same data
- Financially and politically independent
- We are not afraid to think for ourselves and speak up

Corona Investigative Committee Session 86, The Fog Is Lifting

<https://odysee.com/@Corona-Investigative-Committee:5/Mike-Session-86-en:0>

The screenshot shows a Zoom meeting interface. At the top, there's a recording indicator and a status bar that says "You are viewing Stiftung Corona A. 's screen". The main content is a PowerPoint slide with the following text:

Stiftung Corona
Aus

Why does this matter?

- All drugs are poisons, it is a matter of dosing, application and risk/benefit:
 - Warfarin (blood thinner) – its other application is rat poison
 - Chemotherapy agents for cancer are highly toxic
- Mass produced food, beverages, vitamins, supplements, homeopathic products, etc:
 - If you drank a can of beer from your favorite brand and the result was 300% different from previous time, would you drink that beer again?

That's why product consistency matters!

Folie 3 von 12

On the right side of the screen, there is a video feed of Dr. Mike Yeadon, a man with short grey hair wearing a white shirt, speaking from a room with framed pictures on the wall. The name "Mike Yeadon" is visible below the video feed. In the top right corner of the Zoom window, the "OVALmedia" logo is visible.

FDA Good Manufacturing Practices (GMP): 21CFR210.1

- High quality, consistency and purity standards for drugs/vaccines:
 - Expectation that every new lot/batch is “almost the same” as all previous lots
 - Expectation that vaccines from different manufacturers for a disease indication are “the same” or interchangeable product
- Current FDA GMP regulations were developed after several adulterated or poorly tested products poisoned and killed 100s of people (early 1900’s to 1960’s)
- “The failure to comply ...shall render such drug to be adulterated ...shall be subject to regulatory action”.

VAERS Data: Covid 19 mRNA Vaccines vs Seasonal Flu Vaccines

Seasonal Flu Vaccines	Covid 19 mRNA Vaccines
9 injectable products	3 injectable products
10+ manufacturers	3 manufacturers (Pfizer, Moderna, Janssen)
10+ years of data	<12 months of data
22,334 manufacturing lots*	24,945 manufacturing lots*
9,429 Serious Adverse Events**	47,239 Serious Adverse Events**
906 deaths**	7,335 deaths**

*Unvalidated – i.e. lots that are present in VAERS database, not complete list, contains typos. This does not matter when comparing two datasets that have the same error-prone data.
**Numbers of events reported to VAERS in each category
