Win Win Tint	Founder and Chief Executive Officer, City Mart Holdings Co. Ltd, Myanmar	Win Win Tint is an award-winning Myanmar businesswoman. Following an education in Myanmar and Singapore, Win Win, at the age of just 21, assumed the management of City Mart Holding Company Limited (CMHL), a recently-formed family company. At that time, CMHL operated just a single supermarket in central Yangon. Despite facing difficult economic and political conditions, Win Win built the business into the leading modern retail company in Myanmar. As well as expanding City Mart supermarkets to 25 branches, she launched the Ocean Supercenter brand of hypermarkets (now present in 6 cities across Myanmar), Seasons bakery and cafe, City Care health & beauty stores and several other retail and food and beverage brands – all household names in Myanmar. She now leads a group with over 170 outlets and 8,000 employees. Win Win has been recognized for several international honors and awards. In 2012 she was appointed a Young Global Leader by the World Economic Forum. In 2015 she was ranked by Forbes Magazine as one of the 50 most powerful businesswomen in Asia-Pacific. She has also found success in the ASEAN Business Awards: in 2014 she won the Woman Entrepreneur Award and in 2016 she won the Young Entrepreneur Award. In addition to her role at CMHL, Win Win serves as the president of the Myanmar Retailers Association.

Ashutosh Tiwari	Founder, SAFAL Partners, Nepal	Ashutosh Tiwari's areas of expertise include SMEs, entrepreneurship, non-profit management, water, development and public policy. He is currently Country Representative for WaterAid Nepal and is Co-Founder of Entrepreneurs for Nepal (E4N), a networking organization for Nepali entrepreneurs. Previously, he was Chief Executive Officer of Himalmedia, Nepal's leading media house. He was also Head of WaterAid in Nepal, working with the government, civil society, non-profit and private institutions to provide water and sanitation to the poor. Tiwari studied economics at Harvard University. Afterwards, he worked as a strategist for a social movement in rural Nepal, assisting in a campaign that led to the freedom of about 200,000 bonded ethnic Tharu labourers. Convinced that profits enabled the poor to take charge of their lives, Tiwari worked as an adviser on SMEs at GiZ-Nepal and the International Finance Corporation (IFC) in Dhaka, Bangladesh.
Christopher Wing To	Counsel, Gilt Chambers, Hong Kong SAR, China	Christopher To is currently an Independent Arbitrator and Mediator, specialising in International trade, aviation and engineering disputes. Ruben Vardanyan	Entrepreneur & Philanthropist, RVVZ Foundation, Russian Federation	Ruben Vardanyan is an Armenian-Russian social entrepreneur, impact investor and venture philanthropist. A recognized expert on the global economy, entrepreneurship and education, he provides strategic consulting through his membership of boards of directors, advisory boards and trusteeships of commercial companies, non-governmental organizations, educational institutions, and public and professional bodies. Among them are Aznavour Foundation, business schools in Russia and Brazil, a major Armenian bank (Ameriabank) and Russia's auto major (KAMAZ). A prominent financier, Ruben is known both for his commercial projects (investment companies Troika Dialog and Vardanyan, Broitman and Partners) as well as his deep reaching philanthropic programs, such as the first UWC college in Eastern Europe (Dilijan, Armenia) and the Tatev Revival Project, part of which includes the construction of the world's longest cableway leading to an ancient monastery. Together with their partners, Ruben and his family have invested about \$600M in projects in Armenia, developing a commercial approach that relies on involving blended financing to find solutions to social problems. They have also raised over \$600M to finance the first private business school in Russia – a pioneering institution both in terms of scale and in its collaborative nature. In 2015, Ruben co-founded another global project, the Aurora Humanitarian Initiative, on behalf of the survivors of the Armenian Genocide and in gratitude to their saviors. He spends a significant amount of his time on projects related to the development and professionalization of charity infrastructure in Russia (Philanthropy Infrastructure – PHILIN) and the questions of wealth and legacy curation (Phoenix Advisors). With support from Ruben, Troika Dialog, SKOLKOVO business school and several charitable foundations, classics of world business literature were published in Russia. Since 2016 he has chaired the judging panel of the PwC – Business Book of the Year in Russia Award.

<p>Mikkel Vestergaard Frandsen</p>	<p>Chief Executive Officer, Vestergaard SA, Switzerland</p>	<p>Mikkel Vestergaard Owner and Chief Executive Officer Vestergaard and Sceye Mikkel Vestergaard is the CEO and owner of Vestergaard, a global social enterprise dedicated to improving the health and well-being of vulnerable people, especially those who live in developing countries. Mikkel is known internationally as a visionary leader who is willing to challenge the status quo and take risks when necessary to produce innovative solutions. He has structured the company around a humanitarian entrepreneurship business model where doing good is good business. This approach supports achievement of the United Nations Sustainable Development Goals (SDGs). Vestergaard’s game-changing solutions contribute to a healthier, more sustainable and socially just planet by fighting diseases including malaria, HIV/AIDS, diarrheal disease and neglected tropical diseases, decreasing hunger and malnutrition, and enhancing gender equality. These global challenges are tackled by four separate companies integrated into the overall Vestergaard enterprise. Vestergaard’s public health company is the largest global producer of long-lasting insecticidal bed nets. More than 1.6 billion people have benefited from PermaNet® bed nets, which have contributed to the reduction in deaths from malaria by more than one third over the past decade. Vestergaard’s water company produces the award-winning LifeStraw® water filter which was named “Best Invention of the Year” by Time magazine. Its food security company produces products under the ZeroFly® brand that protect livestock and harvested grains from the debilitating impact of flies and other insects. In 2014 Mikkel founded Sceye, a company that is building stratospheric platforms to prevent human trafficking and provide last mile connectivity and real time climate change monitoring. Sceye will use the unchartered territory that exists between drones and satellites to place airships parked at 65.000 feet. They will provide unsurpassed</p>

Wang Wen	Food Scientist, Nestlé R&D Centre Singapore, Singapore	Bioengineer, entrepreneur and designer. Research focuses on biointerface, involving interdisciplinary studies that combine the knowledge of biotechnology, advanced materials, and design. Vision is to fill the gap between research and real-world applications by enabling easy to access technology and more affordable products. Has been working on numerous research and commercial projects, for instance, producing therapeutic proteins and small molecule drugs with novel processes, making sustainable biofuel from waste, removing sulphur from diesel, and fabricating innovative healthcare/household products using biological living materials. Recent research focuses on innovative materials to enhance well-being, such as functional and shape-shifting food. Work has been recognized by the media (Washington Post, CNN, Discovery), academia (Science Advances, JACS, ACM-CHI), and the public (through exhibitions at Centre Pompidou, Ars Electronica).
James Wanjohi	Managing Partner, Alpha Strategy Consultants, South Africa	James Heads up Alpha Strategy Consulting, an African boutique strategy advisory house; advising large corporates on their expansion in Africa. He previously headed up GEMS Education Solutions work in Africa. Previously, he was the Managing Director of the Branson School of Entrepreneurship, established in 2006 by Sir Richard Branson, to spearhead the advancement of young marginalized entrepreneurs. A successful visionary entrepreneur, Wanjohi was educated in India (Aurangabad and Vadodara) in commerce, economics and strategy. Today James partners with corporates to build youth entrepreneurship programs linked to innovation responding to the youth bulge challenge in Africa. He serves on the Boards of Ndiza Micro Finance and UDDI, and is a Strategic Director for Africa Kapital Konnect.

<p>Wan Nadiah Wan Mohd Abdullah Yaakob</p>	<p>Executive Director and Group Chief Executive Officer, TMC Life Sciences Berhad, Malaysia</p>	<p>Wan Nadiah Wan Mohd Abdullah Yaakob is the Group Chief Executive Officer of TMC Life Sciences (TMCLS), the youngest CEO in Malaysia. Prior to joining TMCLS, Yaakob was the Chief Operating Officer at Sunway Medical Centre after being promoted from Director of Business Development and Corporate Communications in October 2016. She started her career at The Boston Consulting Group in 2007 as an Associate Consultant before joining Sunway Group as Manager, Strategy and Corporate Development in 2010. With a vision of building an integrated healthcare system spanning, hospitals, lifestyle and preventive health, reproductive medicine, pharmacy and TCM, she is passionate about evolving the way healthcare is delivered. She uses her various public platforms to champion youth leadership in the corporate sector, based on principles of transparency and social accountability.</p>
<p>Pooja Warier Hamilton</p>	<p>Managing Partner, The Conduit, United Kingdom</p>	<p>Pooja is the Senior Advisor at Apolitical, a peer to peer and first of its kind learning platform for government. Apolitical helps government transform itself by connecting public servants to the latest and best ideas, skills, and partners they need to solve today's complex challenges. She is also the Interim Executive Director of the Apolitical Academy that accelerates the transition of the next generation of transformational leaders to governments or elected offices.</p> <p>Prior to that, she was the Founding and Managing Partner of Conduit Connect, an impact investing platform for The Conduit, a community of investors, entrepreneurs and business leaders. She also supported the formation of Conduit Capital to fund and scale high impact solutions with The Conduit community. Pooja was the co-founder and former CEO of UnLtd India, that finds, funds and supports early-stage social entrepreneurs in India. She also co-founded Bombay Connect, a co-working space for entrepreneurs and Journeys for Change that brings global leaders to learn from social entrepreneurs in India.</p> <p>Pooja serves as an advisor for private family offices and sits on advisory councils of Educate Girls and Greenwood Place. She is a TED India Fellow since 2009, a Young Global Leader by the World Economic Forum since 2013 and an Aspen India fellow since 2016.</p>

Caroline Watson	Director and Founder, Hua Dan, France	<p>Caroline Watson is Founder and Director of Scheherazade Initiatives, a global organisation that uses participatory theatre as a tool to empower migrant, refugee, and displaced populations.</p> <p>Caroline first came to global attention for her pioneering work setting up Hua Dan, one of China's first and leading social enterprises. Hua Dan uses the power of participation in drama-based workshops to reveal and develop individual and community potential. Hua Dan has a particular focus on working with China's rural-to-urban migrant workers, particularly women, who work in the manufacturing and service industries, at the heart of China's economic boom.</p> <p>In founding Hua Dan, Caroline has pioneered the importance of participation in the arts and creative education in a country that has no precedent for anything other than a hierarchical, rote-learning education model; empowered female migrants from the countryside to lead and manage the organisation through a vocational training model; and refined a sustainable hybrid non-profit/for-profit business model for arts-based learning methodologies.</p> <p>Caroline is now developing the work she did in China into a global model for theatre-based approaches to empowerment, education and training through the Scheherazade Initiatives, with a particular focus on refugee leadership. She is also the Founder of the Global Arts Impact Agenda, an initiative that seeks to radically innovate in how the arts can be a tool for achieving the SDGs, and which grew out of her chairmanship of the World Economic Forum's Global Agenda Council on the Arts in Society. She is also the lead facilitator in the Young Global Leaders Spirituality and Transformative Leadership initiative.</p> <p>Caroline speaks, writes and consults to corporations and global institutions at www.carolinewatson.org.</p>
-----------------	---------------------------------------	---

Nolan Watson	President and Chief Executive Officer, Sandstorm Gold Ltd, Canada	President and CEO, Sandstorm Gold, a NYSE American-listed company with a market capitalization of \$1.1 billion. Barbara Ann Bernard	Founder and Chief Investment Officer, Wincrest Capital Ltd, Bahamas	<p>Founder & Chief Investment Officer of asset management firm, Wincrest Capital. Barbara Ann was named as one of the top 50 Women in Hedge Funds globally by Ernst & Young and the Hedge Fund Journal in 2019. She co-founded the Variant Perspectives: Women in Value Investing Conference and was honored as a Young Global Leader in 2018 by the World Economic Forum. Her passion for investing goes back to her days of growing up in The Bahamas where as a teenager she persuaded legendary value investor Sir John Templeton, a fellow Bahamian resident, to take her on board for the first of what would become a series of summer jobs at Templeton, instilling a fundamental value-oriented investment approach to the public markets. Later, working in investment banking at Goldman Sachs, followed by alternative asset management at Deutsche Bank, and as an investment analyst at Holowesko Partners, she acquired a robust grasp of private market valuation and the hedge fund industry. Today, she is the portfolio manager of the Wincrest Contraria Fund, which is a global long/short equity fund of niche, esoteric investment ideas based on bottom-up "Go-See & Verify" research. Barbara Ann is a graduate of Li Po Chun United World Colleges ("UWC") in Hong Kong, Lakefield College School in Canada, and the London School of Economics, where she Chaired the LSE Business Society. She is currently a Director of the Lyford Cay Foundation and Chair of the UWC Bahamian National Committee.</p>

<p>Claire Boonstra</p>	<p>Founder, Operation Education, Netherlands</p>	<p>Claire Boonstra is Founder of Operation Education, a non-profit organization enabling educational leaders to lead the change. Operation Education creates space for the transformation towards an education that enables all humans to unleash their unique potential, to learn life together and to take ownership of one's own life and of the world we strive for: peaceful, happy, healthy and sustainable. To achieve this, we enable leaders in education to find their own deeply felt purpose and we enable them to transform themselves and their schools to live this purpose - as an ecosystem where ownership lies in the hands of the right people. Together with the amazing school leaders which already have transformed their learning environments, we create an ecosystem which supports those wanting to change - and we allow this type of education to become the new normal.</p> <p>Before finding her mission in education, Claire was a Co-Founder of Layar, at that time the global market leader in augmented reality and interactive print. Prior to becoming an entrepreneur, she pursued a corporate career with KPN and Unilever. Boonstra has received various awards as an entrepreneur and innovator and has frequently been listed as one of the most influential women in technology. She is a 2011 WEF Technology Pioneer and a 2012 WEF Young Global Leader. Boonstra is regularly asked to be a keynote speaker, judge and advisor. She holds an MSc in Civil Engineering, is a mother of three children and loves skiing, dancing, horseriding and nature.</p>

TED Senior Fellow, WEF Young Global Leader Alumni, Fellow of the Royal Society of Arts.
Nilda Bullain	Vice-President, Operations, International Center for Not-for-Profit Law (ICNL), USA	Born in socialist Hungary and spending childhood years in La-Paz, Bolivia, Nilda developed a passion for freedom and social change at an early age. She attended meetings of the opposition in the living room of their home in Budapest, and travelled to help Roma communities in far corners of Hungary before she was 18. At the change of the political system she was involved in human rights organizations and the nascent women's movement; she co-edited the first feminist journal in Hungary. Her path led her to get a legal education and work with civil society organizations, recognizing the vital importance of both the rule of law and a free civil society to democracy. Currently, Nilda is Vice President at the International Center for Not-for-Profit Law (ICNL), working to protect the rights of civil society in over 100 countries. Prior to joining ICNL in Washington, DC, she was Executive Director of the European Center for Not-for-Profit Law and worked directly on legal reform in over 20 countries of Central and Eastern Europe. Nilda is an internationally recognized leader, having served as Chair of the Civil Society Advisory Committee to the UNDP Administrator and a Young Global Leader of the World Economic Forum, among others. She is currently serving on the Board of CIVICUS where she was elected in 2016. Today, Nilda still believes in the strength of citizens to bring about much needed positive social change.

-------------	---------------------------------	---

Nomin Chinbat	Chief Executive Officer, Mongol TV, Mongolia	<p>Through her professional work in media and her active role in social initiatives she has become one of the opinion shapers and role model for young people in Mongolia. In her earlier career Nomin Chinbat introduced global standards of hospitality in a country transitioning from totalitarian regime to a free market economy, driving profound changes for the whole industry. Her hotel is not only one of the top touristic attractions of the country but it is the single largest employer and tax-payer in the town that it operates in.</p> <p>She created MongolTV, in 2009, with a vision to educate and enlighten the public with non-biased information and knowledge. It quickly developed into the most viewed independent channels of the Nation. The channel has pioneered ethical broadcasting and responsible journalism in a country rigged with corruption and political interference. It strives to gain societal acceptance of internationally accepted norms and standards in the media industry. MongolTV was instrumental in introducing legal changes that ensure protection of intellectual property rights and paved the way for fight against copyright infringement.</p> <p>She was elected as Founding Chair of the Mongolian Media Council, the first self-regulatory press ombudsman in 2015, in recognition of her vision to create a legal environment for ethical journalism.</p> <p>She is engaged in philanthropy through various initiatives such as Byatshan Ger to help underprivileged kids and hearing impaired citizens.</p> <p>In recognition of her achievements, she was selected as one of the "30 under 30" by Forbes Mongolia and "Top 25 Women in Television" by Hollywood Reporter. She is always seeking to develop herself professionally, in pursuit for that she is currently attending executive program at Harvard Business School.</p>

Kanika Dewan	President, M/S.BRAMCO W.L.L, India	<p>Born an Indian, was raised in the Middle East, educated in England and the United States, Miss Dewan has the ideal exposure to architecture and business practices that is required to cater to the shrinking global market place.</p> <p>She is in the Guinness Book of World Records. Voted as Wharton 40 under 40 during the first initiative of this kind by The Wharton School. A winner of 3 Entrepreneur of the year awards, selected consecutively since 2010 to 2013, in India as well as in the Middle East and was also selected as a Young Achiever of the Year by Society magazine. These are a few of Kanika Dewan's diverse achievements featured in Entrepreneur magazine, India today, Mint: Wall Street Journal, Economic Times, a few amongst other premier publications.</p> <p>Journalists have lauded her for designing and building all stone works at the world's third largest airport: The New Delhi International Airport: T3. As Chairperson of Ka Design Atelier Kanika Dewan was responsible for design consulting of facade interface, selection of other finishes as well as execution of 1.3million square feet of granite used for cladding and flooring the renowned airport. She is now innovating in the same way for the well awaited Mumbai International Airport. Her design acumen extends to art work in stone designed for the world's largest luxury yacht for the King of Oman where she innovated a proprietary light weight stone system. Kanika's mission of "life improvement" has led her to design a one of a kind, environmentally friendly stone paneling system for the 7 star, Leela Palace in Delhi.</p> <p>In addition to her passion for innovation and design through the use of natural mixed media, Kanika's desire to make the world a better place is the fuel behind the future development of her environmentally conscious, mobile housing plan for low income individuals. Her recent keynote speech during a Gala Dinner in San Francisco, addressed a group of 400 plus established Indian professionals to propagate her fight against corruption. Her work continues to expand to government initiatives related to anti-corruption.</p>

Joy Dunn	Head, Manufacturing, Commonwealth Fusion Systems, USA	<p>Joy Dunn is the Head of Manufacturing at Commonwealth Fusion Systems (CFS), a clean energy startup based in Boston, where she is responsible for building the superconducting magnets that are at the heart of a commercial fusion power plant which will provide safe, clean, and limitless energy for the world. CFS was spun out of MIT and works collaboratively with MIT's Plasma Science and Fusion Center to combine decades of government and academic research with the innovation and speed of the private sector. Supported by the world's leading investors, the CFS team is driven by the climate change crisis to develop the fastest path to commercial fusion energy. Before joining the CFS team in January 2019, Joy spent a decade at SpaceX developing and manufacturing the Dragon spacecraft to deliver cargo and astronauts to the International Space Station. She was heavily involved with the manufacturing of the Dragon 1 spacecraft and played an integral role in SpaceX's achievement of being the first private company to launch a spacecraft in orbit and also dock with the International Space Station. She managed the manufacturing engineering team responsible for substantially reducing overall spacecraft build hours and cost while overseeing Dragon's annual budget and construction of a high-tech production facility for the Crew Dragon vehicle. Joy also co-founded both the Women's Network and LGBTQ employee interest groups at SpaceX and she is actively involved in STEM outreach events, including sitting on the Board of Directors for Out For Undergrad, a non-profit that helps LGBTQ students reach their full potential. She was also named to Business Insider's list of the Most Powerful Female Engineers of 2017. Joy received her B.S. in Aerospace Engineering from the Massachusetts Institute of Technology.</p>

-------------------------	--	--

Samuel Alemayehu	Managing Director, Cambridge Industries Ltd, USA	<p>Mr. Samuel Z. Alemayehu is Global Managing Director at Cambridge Industries Ltd. and co-chairman of Moonee Investment Group. Sam started his career in Silicon Valley as a serial entrepreneur.</p> <p>He was the founder of three successful tech ventures based in California and after that, he was an Associate at Venrock Associates (The Rockefeller Family Venture Firm) investing in consumer media services around the world. Sam incubated a mobile apps platform, 4AFRI Media, at Venrock and moved to Africa to run it. Sam has always believed that infrastructure is the bottleneck for growth in emerging cities. To address this bottleneck, he then helped co-found Cambridge Industries Ltd, to develop and construct sustainable infrastructure in emerging cities starting with those in Africa. Sam and his team at Cambridge designed an ambitious infrastructure model starting with a facility which can process over 1,000 ton of waste per day and produce over 100,000 MWhr of electricity per year while supporting the direct and indirect employment of over 10,000 people within a single city. Cambridge envisioned a sustainable city park that was a path to self-sufficiency for cities. In August 2018 Cambridge has helped develop and construct a facility that surpassed the goal with a capacity to process 1,400 tonnes per day of waste in Addis Ababa, Ethiopia with a capacity to produce up to 185,000 GWhr per year. Waste management in the city of Addis Ababa supports over 15,000 jobs. Cambridge Industries Ltd. is aiming to deploy \$750 million USD to build six additional facilities throughout Africa.</p> <p>Samuel is on the board of Contingent Technologies Inc a company in which CIL is a lead investor to develop and own wind energy projects throughout Africa with a focus on East Africa. He is an expert on technology investments and development of renewable energy projects in Africa with emphasize in sustainable cities. He is a graduate of Stanford University School of Engineering.</p>

<p>Brian Gallant</p>	<p>Leader, New Brunswick Liberal Party, Canada</p>	<p>Brian Gallant was sworn in as Premier of New Brunswick on October 7, 2014. He is someone who understands our province and the hopes and concerns of New Brunswick families.</p> <p>His father is an Acadian and the youngest of 7 children. His mother is a Scholten, one of 17 children born to Dutch immigrants. His parents Pierre and Marilyn worked hard for everything they got. His parents had instilled in him the importance of work and education. That's why he ran two small businesses while studying in order to pay for his tuition. He went on to receive a Bachelor in Business Administration and his Law degree from the Université de Moncton. He then received a Masters in Law degree from McGill University. He worked in the private practice of law until being elected leader of the Liberal Party in 2012.</p> <p>Since that time he has since been working hard on New Brunswick's priorities of jobs, education, and health care. He has worked to right the finances of the government, starting with cuts to his own salary and the salaries of his cabinet, and ensuring that public money is directed towards New Brunswick's priorities. His government has reinvested in public infrastructure, put in place a youth jobs strategy and with the creation of Opportunities New Brunswick helped bring more employers to our province or expand their operations. More recently his government introduced the outline for an economic growth strategy to ensure the long-term sustainability of our communities.</p>
<p>Kate Gallego</p>	<p>Mayor of Phoenix, Arizona, City of Phoenix, USA</p>	<p>As the youngest female mayor of Phoenix, Arizona, the fifth most populous city in the US, Kate Gallego has built a reputation as a public servant. She has championed infrastructure solutions, sustainability, and economic development. Under her leadership, Phoenix is the fastest growing city in the United States.</p>

<p>Mina Guli</p>	<p>Founder and Chief Water Advocate, Thirst, Hong Kong SAR, China</p>	<p>The founder and CEO of Thirst, Mina is a global leader, entrepreneur and adventurer committed to making a difference in the world. Following a successful 15-year career in law, finance and climate change, Mina established Thirst – a YGL initiative non-profit changing the way we think about water.</p> <p>Since its launch in 2012, Thirst has educated more than 2million students in China, trended on Chinese Twitter, set a Guinness World Record, run innovation competitions with the participation of over 700,000 students and now works with thousands of qualified volunteers and schools across China with the support of the Chinese Government. Mina is also a keen ultra-distance athlete, having started running only at the age of 22 after a severe injury. She runs to raise awareness and inspire action around the global water crisis and in doing so, has set three world firsts. In 2016 in just 7 weeks, Mina ran 40 marathons across 7 deserts on 7 continents, including Antarctica – a continent that left an indelible impression on her for its critical role in the water cycle. In 2017, Mina ran 40 marathons in 40 days on 6 continents down 6 of the World’s great rivers to promote the UN’s Sustainable Development Goal 6 (water). Along each of her routes, Mina interviews local people and water experts, putting together a real and very visual representation of the water crisis we are facing. Currently available in short film format, Mina and the team are documenting these stories so they are accessible to the millennial generation. Incredible journeys whose messages about water have reached over 5 billion people. Concerned about the pace of change, in 2018, Mina started #RunningDry – a</p>

Wanuri Kahiu	Filmmaker, AFROBUBBLEGUM, Kenya	<p>Filmmaker, speaker and science fiction writer. Short award-winning science fiction film PUMZI (2009) about futuristic Africa premiered at SUNDANCE Film Festival (2010) and received international acclaim including the Citta di Venezia award at the Venice Film Festival 2010. Futuristic views have been the source of articles, African futurist journals, masterclasses and dissertations. Award-winning film "RAFIKI" a same-sex love story about two girls, was the first Kenyan film to be invited to Cannes Film Festival (2018). The film was banned in Kenya; sued the Kenya Film Classification Board for the infringement of constitutional rights to freedom of expression. The constitutional case is ongoing. Speaks globally about freedom of expression and AFROBUBBLEGUM " the advocacy for images of fun, fierce and frivolous African images " and was named TIME"s 100 Next in 2019.</p>

Vimbayi Kajese	Founder, #Adtags, USA	<p>Vimbayi is the Founder of #Adtags, a proudly African based marketplace that helps conscious brands source desperately needed images of people of colour for advertising, from everyday social media users around the world. After 15 years of working in media, Vimbayi knows that the power of visual representation is lifesaving. She was invited to expound on her thesis on the TED stage in her thought-provoking talk entitled: "Can an Image Save a Life?"</p> <p>Vimbayi is happiest grilling heads of states, captains of industry, thought leaders, and influential disruptors (politely) at prominent conferences and private events. Audiences enjoy watching her guests reveal themselves in down-to-earth ways that other interviewers haven't been able to achieve. Vimbayi is therefore sought after for her personable and diplomatic interview style which allows her to connect with some of the most media avoidant personalities.</p> <p>Her activism for creating new narratives: for women, people of colour, her African continent and tech in the age of the Fourth Industrial Revolution is at the heart of everything she does. She has served communities in different parts of the world as a rape crisis counselor, mentor to the next generation of leaders, cofounder of a Business Sustainability consultancy and publication in China, and most notably was instrumental in improving intercontinental relations as the "Face of Africa for China" as the first African anchor on Chinese state news, which broadcasts to over a billion viewers globally. She also helped lead Zimbabwe's Presidential delegation on their maiden voyage to Davos 2018, to thaw and re-establish relations with the West.</p> <p>Vimbayi has featured in several publications, been invited to present on the TEDGlobal, and TEDx stage; was recognized as a "Young Global Leader" by the World Economic Forum; a "New Generation Leader" by the African Leadership Network; declared one of Zimbabwe's "Most Influential Under 40"; and was appointed by the Chinese government as a "Special Friendship Envoy and Cultural Ambassador".</p>
----------------	-----------------------	--

Neema Kaseje	Surgeon, MÃ©decins Sans FrontiÃ©res, Switzerland	<p>Dr Neema Kaseje: â€œis a pediatric surgeon and public health specialist. She is an expert in building pediatric surgical care delivery with previous experience in Kenya, Haiti, Congo, CAR, and Liberia. In Haiti, she served as the only pediatric surgeon in the public sector and scaled up pediatric surgical care delivery in the region through the training of junior doctors. As a result, her team was able to double the number of children accessing life saving pediatric surgical care. Similarly in Liberia, she was part of the first cohort of surgeons stationed to the first pediatric surgical program by a humanitarian organization such as Doctors Without Borders. Once again, she emphasized training and the setting of minimum standards and protocols as the foundation for improving access to pediatric surgical care in complex humanitarian settings. In Kenya, she has contributed to improved access to pediatric surgical care by leveraging technology and community health workers as powerful forces for the early detection and referral of children in need of life saving surgical care. In Turkana, Kenya, she is mobilizing women leaders to tackle the persistently elevated maternal mortality that is disproportionately affecting adolescent girls. These activities are key to the global conversations on health leadership as a mechanism for improved health, social cohesion, and inclusive economic development.</p> <p>She is Founding Director of the Surgical Systems Research Group based in Kisumu, Kenya. She is committed to global health equity and improving access to surgical care as a pathway to rapidly achieving Sustainable Development Goals by 2030. She is actively involved in the Global Initiative for Children's Surgery. She is committed to youth in Africa and recently launched leadership training bootcamps for young girls aspiring to be leaders in health, technology, and science. There are plans to hold these leadership training bootcamps in Kakuma in 2020. She was named a Young Global Leader by the World Economic Forum in 2017, and was recently appointed as the focal point for the World Health Organization Programme in Emergency and Essential Surgical Care. She is currently leading a Wellcome Trust funded integrated community and health systems</p>
Sam Kass	Partner, Acre Venture Partners, USA	<p>Sam led food and nutrition policy for the Obama Administration, and was the Executive Director for First Lady Michelle Obama's Let's Move! Campaign. --------------------	--	---

Tigran Khudaverdian	Deputy Chief Executive Officer, Yandex, Russian Federation	<p>Born in Yerevan, Armenia in 1981, Tigran Khudaverdian is a graduate of the Moscow State University Faculty of Physics. Before joining Yandex, he participated in developing internet projects and headed a web studio.</p> <p>He joined Yandex in 2006, starting out as manager of Yandex.Passport, a service that brings together all user's Yandex accounts in one profile. In 2008 he became head of mobile and software products. Yandex.Navigator and Yandex.Browser apps were launched under his leadership.</p> <p>Tigran became head of Yandex.Taxi in 2014, and then its CEO after it became a separate company in 2015. Thanks to technologies like smart routing, machine learning, demand forecasting and smart order distribution, the Yandex.Taxi app quickly transformed taxis into an accessible, fast and safe form of transportation.</p> <p>On February 7, 2018, Yandex and Uber announced that the merger of Yandex.Taxi and Uber ride-sharing businesses in Russia and neighboring countries had been finalized. The combined company is held approximately 59% by Yandex, 37% by Uber, and the remaining share by employees of the group on a fully diluted basis. Tigran Khudaverdyan became the CEO of the combined business.</p> <p>With Tigran at its helm, the Yandex.Taxi group has also expanded into self-driving cars and food tech.</p> <p>Tigran is married and the proud father of four sons.</p>
Marc Kielburger	Co-Founder, Free the Children, Canada	<p>Marc Kielburger is CEO of Free the Children, the world's largest network of children helping children through education. More than 1 million young people have been involved in the organization's innovative programmes in more than 45 countries. Free the Children, launched by Kielburger's brother Craig at age 12, has received wide recognition including three nominations for the Nobel Peace Prize and partners with the United Nations and Oprah's Angel Network. In 1999, the brothers co-founded Leaders Today, which trains young people to have the skills and confidence to go out and change the world. This involves linking students with public service opportunities and running a three-day leadership training seminar, Volunteer Now, in seven school districts across Canada. Three more will be added in 2007 and the brothers hope to expand the programme to the USA. Kielburger did his undergraduate work at Harvard and took courses at the John F. Kennedy School of Government at Harvard. He was a Rhodes scholar and earned a Law Degree from Oxford.</p>

Elaine Kim	Co-Founder, Trehaus, Singapore	<p>Elaine Kim is a medical doctor and entrepreneur. She is the CEO of Trehaus (www.trehaus.co) an integrated co-lifestyle space for families with a preschool and childcare, office space and family club. Prior to taking the helm at Trehaus, she was the CEO of CRIB (www.crib.com.sg), a social enterprise she co-founded to empower women to become successful entrepreneurs. She continues to practice medicine part-time as a palliative care doctor looking after terminally ill patients.</p> <p>She is deeply involved in the non-profit sector through volunteering time and skills, leading and executing successful awareness-building campaigns, and raising over \$1 million for multiple philanthropic causes, as well as implementing positive social change through CRIB's charitable arm CRIB Gives Back.</p> <p>She is married to venture capitalist John Kim of Amasia (www.amasia.vc) and they have 3 young children.</p>

Adam Kinzinger	Congressman from Illinois (R), 11th District, United States House of Representatives, USA	Adam D. Kinzinger is currently serving his fourth term in the United States House of Representatives and proudly represents Illinois's Sixteenth Congressional District, which stretches across 14 counties in the Northern Illinois region. Congressman Kinzinger serves as a member of the House Committee on Energy and Commerce, and on the House Committee on Foreign Affairs. His top priorities include strengthening U.S. energy policy and making our nation less reliant on foreign resources as well as bolstering the strength of our national security – both at home and abroad. The Sixteenth District is home to four nuclear power plants, miles of windmills, hydropower plants, and ethanol and biodiesel plants. The nuclear energy production alone employs more than 2,500 people throughout the 16th district. Coal and natural gas are also vital to the district. With such rich energy resources, Congressman Kinzinger's focus is on advancing energy production throughout the 16th district and the United States. Prior to being elected to Congress, Kinzinger served in the Air Force in both Iraq and Afghanistan. He has always been a strong supporter of U.S. leadership in the Middle East, and he was among the first members of Congress to call for airstrikes against ISIS. He continues to focus on eradicating this threat with a comprehensive and detailed strategy. In 2007, he received the United States Air Force Airman's Medal for saving the life of a young woman who was being violently attacked. He wrestled the knife away from the attacker and pinned him to the ground until the police arrived. He was also awarded the National Guard's Valley Forge Cross for Heroism and was selected as the Southeastern Wisconsin American Red Cross Hero of the Year. Currently serving as a Deputy Republican Whip at the age of 38, Congressman Kinzinger is one of the youngest Members of Congress and was named a Republican Role Model for 2017 by the Washington Post.

<p>Max Liu</p>	<p>Co-Founder and Chief Executive Officer, EMQ Inc., Taiwan, China</p>	<p>Max Liu is Co-founder and Chief Executive Officer of EMQ. A veteran of the financial services industry, Max’s career spans more than 20 years across Asia and the United States. Across Asia, Max has seen how conventional banking excluded large segments of society, particularly low-income overseas workers from having access to financial services. Over time, these overseas workers have become a pillar of the economy while providing a critical lifeline to millions of households in the developing countries. This has inspired Max to build a financially inclusive business leveraging Fintech innovation to meet the needs of the overseas workers. EMQ was launched in 2014 and offers remittance services between two countries at a fraction of the price of conventional banks by utilizing aggregation and netting. With a strong presence across Asia, the company partners with financial institutions and other strategic partners in each country to enable and settle cross-border remittance via banks and various modes for top-up and cash pickup. Earlier, Max served as a founding member and portfolio manager of the Special Situations Asia team at Citadel Investment Group, a global multi-strategy hedge fund with US\$26 billion in assets under management. At Citadel, Max led the Greater China team that sourced, structured, invested, and managed assets across the capital structure. Prior to Citadel, Max held several leadership roles at Goldman Sachs & Co. in New York and Hong Kong in the Fixed Income, Currencies, and Commodities division and served as the Head of Proprietary Research for the Asia Convertible and Credit Trading Group. Max received his Bachelor of Science degree from the Olin Business School at Washington University in St. Louis. He was also named as a Young Global Leader by the World Economic Forum.</p>

-----------------------	---	--

Maggie MacDonnell	Teacher; Co-Founder, Kativik School Board, Canada	<p>Maggie MacDonnell is the winner of the Global Teacher Prize, a \$1,000,000 prize that is touted as the Nobel Peace Prize for education. Maggie's educational approach is rooted in community development and feminist practice. For the last 15 years she has worked with such diverse populations as Congolese and Burundian refugees, Tanzanian youth living with HIV, to Inuit teenagers in the Canadian Arctic. Most recently she taught in an isolated Inuit village called Salluit, nestled in the mountains of the Canadian Arctic and only accessible by plane. Here she worked with the community to establish several initiatives, including a running club that saw her student runners turn into philanthropists raising over \$100,000, while running in marathons in places such as Hawaii and Barbados, and bringing a peer-led suicide prevention message across the Nunavik region. Maggie is very passionate about working with Indigenous groups and others who are demonstrating resilience in overcoming the legacies of colonization. Maggie has studied at St. Francis Xavier University, the Coady International Development Institute, University of Toronto and McGill while she was a Jeanne Sauve Fellow. She has worked abroad with Right to Play, the Canadian International Development Agency, CARE International, and Youth Challenge International. She has been named one of the BBC Top 100 Women, as well as a Visionary with the Albert Einstein Institute. She is using her prize money to fund a QAJAQ/KAYAK program to raise awareness about climate change and reignite cultural pride within Inuit youth. She loves movement - supporting young people to chase their dreams - being outside in mother nature - and slowly moving from an intermediate to a fluent Swahili speaker.</p>
-------------------	---	---

Rhea Mazumdar Singhal	Chief Executive Officer, Ecoware Solutions Private Limited, India	<p>Rhea Mazumdar Singhal is the Founder and CEO of Ecoware, India's first and largest sustainable packaging company. Rhea was awarded the Nari Shakti Puraskar, the highest civilian honour for women by the President of India. Rhea is a World Economic Forum "Young Global Leader" (YGL) and a member of the CII National Committee on Women Empowerment & Clean Air. Rhea has attended the University of Bristol, Oxford and Harvard University. Prior to founding Ecoware, Rhea was a senior sales executive at Pfizer Inc., UK .</p> <p>From the UK, Rhea moved to India where she founded Ecoware with the sole aim of solving India's plastic menace. Ecoware disrupted the food packaging industry by introducing a fully compostable alternative to plastic. Ecoware is made from the waste of agricultural crops that would otherwise be burnt, thus contributing to debilitating air pollution. One of Rhea's greatest successes has been persuading the Indian Railways, the largest food service operator in India, to switch to Ecoware biodegradable trays. Rhea has been featured in major national and international publications and has appeared as a speaker at events such as Salesforce and the National Commission for Women in India.</p>

Originally from London, England, McKeown now lives in Southern California with his wife and their four children. He graduated with an MBA from Stanford University.</p>
Lucy McRae	Science Fiction Artist, Body Architect, Film Maker, Lucy McRae, Australia	<p>Lucy McRae is a sci-fi artist, film director, TED Fellow and body architect, placing the human body in complex, futuristic scenarios that confound the boundaries between the natural and artificial; inventing iconic artworks that take people beyond the expectations of themselves. Trained in classical ballet and interior design, her approach is to influence culture by exploring scientific breakthroughs relating to health and the human body, while providing a feminine point of view on emerging technology. Inventor of Swallowable Parfum, Lucy is recognised as an early identifier of emerging technologies that drive product innovation. Lucy led Philips Electronics' future research lab, developing stretchable electronics, an electronic tattoo and a range of emotional sensing dresses. She has consulted with companies such as Procter & Gamble, Unilever, Intel and Aesop on the cultural impacts that emerging technologies will have on future lifestyles. McRae encourages scientific conversation around the slipperiness of where science and technology meet the body, throwing into question "What makes us Human"? She has spoken and taught masterclasses on the impact technology has on human nature at TED, WIRED Health, Royal Albert Hall, London's College of Physicians, Tribeca, Cannes Lion and most recently at MIT's Being Material conference in 2017. McRae's award-winning artworks have been developed and exhibited at London Science Museum, Centre Pompidou and Venice Biennale.</p>

Seth Moulton	Congressman from Massachusetts (D), 6th District, United States House of Representatives, USA	I am a first-term Congressman representing Northeastern Massachusetts in the U.S. House of Representatives. New to politics, I ran because of my time serving as an infantry officer in the U.S. Marine Corps in Iraq where I saw the consequences of poor political leadership in Washington. In my first year, I've focused on taking care of veterans, driving economic development in my district, making smarter decisions around environmental and transportation policy, and embracing technology in government.
Zhivko Mukaetov	Chief Executive Officer and President, Management Board, Alkaloid, Republic of North Macedonia	Zhivko Mukaetov heads Alkaloid AD Skopje, Macedonia's largest pharmaceutical company. <p>Euvin Naidoo</p>	<p>Director and Member of the Board, Centre of Excellence in Financial Services, USA</p>	<p>Euvin Naidoo has joined the Harvard Business School as a member of the Faculty. He serves as Senior Lecturer of Business Administration in the Accounting and Management Unit focusing on teaching part of the core, required curriculum in Financial Reporting and Control as well as programs focusing on Risk, Agility and Performance Management. Euvin brings a wealth of global and international experience across sectors and regions having served as a practitioner in senior leadership positions in banking, management consulting and venture capital, having lived and worked over the past 2 decades in Johannesburg, New York and San Francisco. His personal focus and work is on risk management, performance controls, governance and agile execution, incorporating the themes of customer centricity and strategic alignment.</p> <p>An alumnus of the Harvard Business School, Euvin was previously part of the African leadership team at the Boston Consulting Group joining as the first South African Partner and Managing Director based out of the Johannesburg office, where he led the Financial Institutions (Banking) and Public Sector Practices. Euvin began his banking career at one of Africa's leading pan-African banks, Standard Bank, within Corporate & Investment Banking, where he focused on Acquisition Finance (M&A), initially based in Johannesburg and then, from 2005, in the New York office. As a New York based investment banker focused on emerging market companies, Euvin worked through an invaluable global learning curve, witnessing the ripple effect of the US financial crisis in 2007 and the risk, credit, organizational and leadership lessons this has for both developed and emerging market companies and regulators. He returned to South Africa from the USA in 2009 to head up the Risk Appetite & Credit Portfolio Management team for Standard Bank, covering a 17 country pan-African footprint across all personal and business banking product lines. In 2013, Euvin was recruited to join Barclays Africa's EXCO as the Head of Strategy, leading the strategy execution for the 'Rest of Africa' (Regional Management) across an 11 country pan-African portfolio. Selected in 2009 as a Young Global Leader by the World Economic Forum (WEF), in 2012</p>
<p>Kumi Naidoo</p>		<p>Political Sociology and Rhodes Scholar at Oxford University. Became an activist early in youth but after having been arrested as a result of anti-apartheid activities and going underground for one year, lived in exile in England until 1989. After Nelson Mandela's release in 1990, returned to South Africa to work on the legalization of the African National Congress. During the 1994 democratic elections, was the official spokesperson of the Independent Electoral Commission and directed the training of all electoral staff in the country. Recognized internationally as a forceful advocate for gender equity and against gender violence.</p>

Nerissa Naidu	Co-founder, CEO, Äil, USA	<p>Nerissa is currently the co-founder and CEO of Äil, a fintech platform-as-a-service focused on helping entrepreneurs with their everyday finances as they grow. Prior to Äil, Nerissa has filled numerous senior executive roles in her two-decade corporate career, to manage and grow global businesses, perform turnarounds, and orchestrate multinational strategic change. Jasandra Nyker		Most recently, Jasandra Nyker was the Chief Executive Officer of BioTherm Energy, a leading African based renewable energy investment and independent project development platform. Previously, she managed the direct investment portfolio on behalf of a US\$ 680 million global energy and clean technology investment fund. Nyker played an integral role in transaction sourcing, due diligence, investment execution and post-investment management. The portfolio included investments in green infrastructure (sugar ethanol, co-generation, wind projects and solar base-load applications), solar technologies, wind turbines, water (desalination, purification) and energy efficiency technologies. Nyker has previously worked in investment banking, strategy consulting and private equity and in multiple regions, including the US, London, Kuwait and Asia. She has an MBA from the London Business School, where she was a Merrill Lynch Scholar, and a Bachelor's degree in Business Science from the University of Cape Town.

<p>Victor Ochen</p>	<p>Executive Director, African Youth Initiative Network-Uganda, Uganda</p>	<p>Mr. Victor Ochen is the Founder and Executive Director for African Youth Initiative Network (AYINET). Born in northern Uganda, he spent 21yrs of his childhood as a refugee in the camps, where he survived on one meal-a-day for over 7 years. He grew up amidst violent conflict that displaced over 3 million people, where 60,000+ children were abducted and forcefully recruited as child-soldiers, including his own brother. His organisation has so far provided reconstructive medical repair to over 21,000 war victims of rape, mutilation, gun shots).</p> <p>Challenged by the hardships of war and poverty, while living in the camps at the age of 13 years, Ochen formed a Peace Club and bravely led the anti-child soldiersâ€™ recruitment campaign amidst the war in northern Uganda. He grew up to become one of the most important figures in Africa, a key reference when it comes to struggle for human rights and justice, a product of resilience, a personification of struggle. He is a lead example on tolerance and nonviolence activism; who is creatively working to address the root cause of conflict in Africa.</p> <p>Forbes Magazines named Ochen in 2015 as one of the 10 most powerful men in Africa, while Archbishop Desmond Tutu attested that â€œmy heart swells with joy to see Ochen as one of the new hope for Africaâ€. He is the first Uganda and the youngest ever African nominated for Nobel Peace Prize 2015. Ochen is the YGL and has received several awards including Elyse Treaty in 2016; Pan-Commonwealth Youth Workers 2015, Mundo Negro Award 2016; all recognizing his service to poor people and his inspirational leadership for peace in Africa. He is the UN Goodwill Ambassador for Peace and Justice promoting SDG Goal16. Mr. Ochen is a member of the Global Advisory Group to the UNHCR on Gender, Forced Displacement and Protection.</p>

Genki Oda	Chairman and Chief Executive Officer, Remixpoint, Japan	<p>Genki Oda is the serial entrepreneur. I have changed the era in many meanings. I founded my first company when I was the University Student. I sell-offs my business and invest many venture companies in Japan. At that time, 2002-2004year, in Japan most venture capital required the venture company to show the phase 3 worth financial statements and the performances. But I thought it was wrong. From my own experiences, most venture companies don't have the performances. They just have the passion and plan , and they need the money. I invest for the entrepreneurs who don't have the evidence or the performances even don't have the company yet. My work have succeeded and many venture capital imitative the start-up venture capital now. So, today in Japan the number of the venture company is increasing.</p> <p>Second, I familiarized the concept of the Social Entrepreneur. I have donated and supported many NPOs and the social entrepreneurs and generated their activities through many media. I was the first member of the Ashoka Japan and the Social Venture Partners Tokyo-Bay. With my works, today working in the NPOs has become one of the choice for the students. Today, I challenge the revitalization for company and entrepreneurs. Most Japanese think the failure is critical and regard the failed people as a garbage. But I think everyone have a mistake and sometimes unfortunately one mistake is critical one. I want to change the mind for the failure. I have revived the Remixpoint which is listed on the Tokyo Stock Exchange markets and the market capitalization have raised from 400million JPY to 100Billion JPY in this 5 years. And the Remixpoint is the attention as the successful company.</p>

Kennedy Odede	President, Chief Executive Officer and Co-Founder, Shining Hope for Communities (SHOFCO), Kenya	Kennedy Odede is founder of Shining Hope for Communities (SHOFCO). He is a former street child who lived most of his life in Kibera, Africa's largest slum, founded SHOFCO with savings from his \$1 per day factory job. SHOFCO's programs have currently served over 219,000 individuals as of 2017. The organization is scaling across Kenya's slums with a model that links free schools for girls to holistic community services for all. SHOFCO is currently in six slums this includes Kibera and Mathare. In 2018 SHOFCO became the winners of the Hilton Humanitarian Prize, this making it the first grassroots organisation to receive such an esteemed award. Kennedy was named a Forbes 30 Under 30 Social Entrepreneur, and has won the Mohammed Ali Humanitarian Award. The New York Times, CNN, and Project Syndicate are some of the Media Houses who've published his opinion articles on urban poverty. His work has been featured by President Bill Clinton, Chelsea Clinton, and on five occasions by Nicholas Kristof in The New York Times, including Kristof's book and documentary. Although he was informally educated, Kennedy received a full scholarship to Wesleyan University, where he currently serves on the board of trustees.

Ioana Popescu	Professor of Decision Sciences, INSEAD, United Kingdom	<p>Ioana is broadly interested in how art and science can inform human judgment and experience towards a more conscious and connected world. She is a Professor of Decision Sciences at INSEAD, where she received multiple awards for her research and teaching, including the MBA Best Teacher Award and the Strategy& Chair in Revenue Management. Her research is multidisciplinary, and combines human judgment with the optimization of complex systems. In the past few years she has been exploring how decision analytics can improve access to finance and energy for unserved markets. Ioana holds a dual PhD from MIT in Applied Mathematics and Operations Research. Born in Transylvania, she is also an art student, a mother, a mountain lover, and a bit of a nomad, having lived on four continents.</p>
---------------	--	--

Vikas Pota	Founder, T4, United Kingdom	<p>Vikas Pota is a globally respected leader and driving force for much good in the education, international development, philanthropy and technology sectors. His achievements include creating global awareness of the importance of education and specifically about the centrality of teachers and their profession.</p> <p>His passion for dialogue, cooperation and creating collaborative projects that further the causes he supports mark him out from a field that is normally bound by national boundaries and often by ideology. As an example, what he has achieved through the Global Education & Skills Forum is truly unique and special, convening a vast range of people of all backgrounds and disciplines, shepherding the conversation to achieve a consensus on the inclusion of the teacher workforce in determining the strategies of education organisations. The way in which he approaches coalition building has resulted in successful partnerships, engaging organisations such as Education International “the international alliance of teacher unions” to the opposite spectrum of for-profit providers in education, bringing them onto a shared platform for dialogue, supporting and strengthening public education systems.</p> <p>As a result of him driving conversations about teachers, several globally renowned organisations have added the teacher workforce to their considerations, whether they be bilateral and multilateral donor organisations, philanthropic institutions, bodies such as the United Nations or organisations further afield including private sector organisations focused on human capital development. His advocacy has resulted in more investment in capacity building programmes.</p> <p>Not only has he been an ardent champion and advocate but has also invested in and built institutions that will long outlive him and those associated with them. Equally, we are already seeing the positive results from his commitment to good governance, ethics and long termism, that will continue to experience the benefit of these in all parts of the world as his work resonates and speaks volumes in some of the most challenging contexts.</p>
------------	-----------------------------	--

Dina Powell McCormick	Global Head, Sustainability & Inclusive Growth; Global Head, Sovereign Business, Goldman Sachs & Co. LLC, USA	<p>Dina Powell McCormick serves on the Management Committee and is responsible for helping to build and enhance the firm’s relationships with sovereign clients around the world. She rejoined Goldman Sachs in 2018 as a Partner in the Investment Banking Division after serving as the US Deputy National Security Advisor for Strategy from 2017 to 2018.</p> <p>Mrs. McCormick initially joined the firm in 2007 and from 2007 to 2017 led the Impact Investing Business and the Environmental Markets Group, which deployed more than \$5 billion in market-based loans and equity to drive sustainable economic development and revitalize under-served communities. During this same period, she was also president of The Goldman Sachs Foundation, overseeing two major initiatives to drive economic growth and opportunity – 10,000 Women and 10,000 Small Businesses – that successfully provided business education and capital to women and small businesses, respectively.</p> <p>Earlier in her career, Mrs. McCormick served as Assistant Secretary of State for Educational and Cultural Affairs and Deputy Undersecretary of Public Affairs and Public Diplomacy and as a senior White House advisor as Assistant to the President for Presidential Personnel.</p> <p>Mrs. McCormick is currently a non-resident Senior Fellow at the Future of Diplomacy Project at Harvard Kennedy School’s Belfer Center for Science and International Affairs.</p>

Danae Ringelmann	Founder and Chief Development Officer, Indiegogo, USA	<p>I am an entrepreneur, advisor, board member and public speaker who has dedicated the majority of my work in service of entrepreneurs bringing innovation, collaboration, empathy and a sustainability mindset to the world's most urgent challenges. Inspired and dedicated to solving the inequity and disparity in access to capital I co-founded Indiegogo - the San Francisco tech start-up credited with inventing perk-based crowdfunding. Nearly \$2 billion crowd-funded dollars later, innovators across the world (of which over 40% are women) are improving health & wellbeing, taking on climate change, revitalizing our natural food systems, and tackling many of the UN's Sustainable Development Goals.</p> <p>The enormous breadth of solutions launched and enabled on Indiegogo and catalyzed via the crowdfunding mechanism is by far the most humbling and rewarding part of my entrepreneurial adventure to date. Starting a company that has consistently lead the industry in gender diversity (upwards of 50% female) is up there too.</p> <p>And as with all worthwhile journeys, I experienced struggles and evolved as an entrepreneur and executive along the way. Today I share my learnings and perspectives as a Board Member and Advisor to entre- and intrapreneurs looking to bring their important innovations to life.</p> <p>Currently I'm particularly interested in efforts to scale and advance personalized health, regenerative agriculture, empowerment of women & girls, workplace diversity & inclusion, attentional management, and mindful human development.</p> <p>As a meta-pursuit, I co-own Huso Lodge - a boutique hotel and company retreat center in the mountains of Norway. Huso offers guests an opportunity to reconnect with untouched nature as well as their own authentic nature. In line with putting my innovation advisory efforts towards my deep interest in helping to clean up our bodies, minds and environment, I'm hoping Huso Lodge becomes a place for others to rediscover and act on their genuine interests too.</p>

<p>Maria Nelly Rivas</p>	<p>Director, Corporate Affairs, Cargill Incorporated, Nicaragua</p>	<p>Maria Nelly Rivas is Cargill's Government Relations Vice President in Latina America. Former Assistant Resident Representative, United Nations Development Programme (UNDP). Previously she was the Central American coordinator for the United Nations World Tourism Organization. In the past she was a partner at Crea Comunicaciones. Prior to Crea, she was Minister of Tourism of Nicaragua. As Minister, she was in charge of promoting, developing and expanding tourism in Nicaragua. Under her leadership, tourism became the top revenue generator for the country. Previously, she was associate director of PRONicaragua, Nicaragua's investment promotion agency. Before joining PRONicaragua, Maria served as senior strategic media planner at multi-national advertising agency McCann-Erickson in New York City and Buenos Aires. While at McCann-Erickson, she managed accounts such as Coca-Cola and Starmedia. In New York, she was responsible for overseeing the agency's network in Latin America while managing quality standards and service for its international clientele. During her post in Buenos Aires, she was responsible for more than US\$40 million in media investment. She holds a BA in communications from Queens College and an MBA from Harvard Business School. She was born in Granada, Nicaragua and resides in Managua with her family. She is a Fellow of the second class of the Central America Leadership Initiative and a member of the Aspen Global Leadership Network.</p>
<p>Albert Rivera DÃ-az</p>	<p>Member of the Congress of Deputies of Spain, Ciudadanos - Partido de la CiudadanÃ-a, Spain</p>	<p>Albert Rivera DÃ-az is a Spanish attorney and politician, holding the role of President of the political party Ciudadanos, the fourth most voted Spanish political party, currently supporting the national Spanish Government. Rivera served as a Member of the Parliament of Catalonia from 2006-2015. He has committed himself to anti-graft measures, reforming political inertia and upholding Spain's diversity, in addition to the fight against corruption. His firm defense of an alternative to the radical nationalism that has controlled regional government and fractured his native Catalonia over the last few decades, the search for the renewal of the obsolete and largely corrupt party system, and, overall, the will to build a future-looking, modern, strong, united Spain, fully integrated in a globalized world, are the main blueprints of his political beliefs.</p>

Kate Roberts	Founder, The Ikigai Company, USA	<p>Kate Roberts has had a 25 year career of championing women's leadership, public health and exponential philanthropy. Together with PSI, Melinda Gates and HRH The Crown princess of Norway founded The Maverick Collective, a \$100M ground breaking philanthropic initiative led by women for women, innovating and scaling women focused public health solutions across 60 developing countries. In her capacity as a Young Global Leader (YGL) Kate is leading the World Economic Forum's impact project #AfterTheFlush. An initiative to address the sanitation crisis in India. The Ikigai company advises individuals and companies on how to put a life of purpose at the centre of their ethos. Ikigai is the Japanese based scientific solution for a long, happy, healthy and purpose filled life.</p>

Hanneli also sits on the Tate International Council and is a trustee of the South African children's education charity Imibala.</p>

Ivy Huq Russell	Founder and Chief Executive Officer, Maya, Bangladesh	<p>Ivy Huq Russell is the CEO & founder of Maya. After becoming a mother for the first time, Ivy originally founded Maya in 2011 as a blog for mothers in Bangladesh. Through her personal journey she experienced first hand the challenges faced by women in Bangladesh when trying to access the information and advice they are looking for. These can range from geographic and financial barriers all the way to socio-cultural. After partnering with leading NGO, BRAC, the Maya service officially launched in Bangladesh in February 2015 with a clear mission to provide women with the information they are looking for, when they need it. Maya is an intuitive, anonymous messaging service that connects its users to qualified experts on health and mental health issues and each other. The service is available on app, web and recently in messenger. We have plans to expand abroad very soon.</p> <p>Ivy grew up in Bangladesh before pursuing her higher education in England. She completed her MSc. in Finance and Economics at Warwick Business School, before spending a number of years as an Investment Management & Hedge Fund professional at leading firms including HSBC, GAM and Barclays. She currently divides her time between Bangladesh and San Francisco, where she is based with her husband, Bickey and 2 children, Ameena and Emir.</p>
Peter Rutland	Managing Partner, CVC Capital Partners, United Kingdom	<p>MBA (Hons), INSEAD; MA, University of Cambridge. <p>Julia Bacha</p>	<p>Filmmaker and Creative Director, Just Vision, USA</p>	<p>Julia Bacha is a media strategist and award-winning filmmaker whose work has been exhibited at Sundance, Tribeca, Berlin, Jerusalem, and Dubai International Film Festivals, and broadcast on the BBC, HBO, Al Jazeera and Al Arabiya television channels. Since graduating Magna Cum Laude from Columbia University in 2003, she has strategically used film to highlight under documented stories from the Middle East. Julia started her filmmaking career in Cairo, where she co-wrote and edited Jehane Noujaim's critically acclaimed documentary, Control Room (2004), for which she was nominated to the Writer's Guild of America Award. Control Room marked the first time most Americans were exposed to an inside view of Al Jazeera and generated wide public debate about US media coverage during the war in Iraq. Since 2004, Julia has been working closely with Ronit Avni to develop and implement Just Vision's media strategy. She wrote and co-directed Encounter Point (2006), which was broadcast on Al Arabiya and endorsed by the Israeli Education ministry, directed and produced Budrus (2009), which had a palpable impact on US and Arab media coverage of nonviolent resistance in the Middle East, and directed and produced My Neighbourhood (2012), which had its world premiere at the Tribeca Film Festival in April 2012. She has been a guest on numerous television shows such as Charlie Rose, MSNBC's Andrea Mitchel Reports and Al Jazeera's Frost over the World. For her influential work in shaping media in the US and beyond, Julia is the co-recipient of the 2009 King Hussein Leadership Prize, 2010 Search for Common Ground Award, 2011 Ridenhour Film Prize and the 2012 O Globo "Faz Diferena" Award. Julia is a term member at the Council on Foreign Relations and her TED talk "Pay Attention to Nonviolence" has been viewed by hundreds of thousands of people worldwide.</p>

Jagmeet Singh	Leader, Canada's New Democrats, New Democratic Party of Canada, Canada	<p>Jagmeet Singh was born in Scarborough, Ontario and spent some time growing up on Canada's East coast before moving back to Southern Ontario. As a kid, he often felt on the margins and left out. That made him more determined to be himself. That's why he grew up to defend the rights of others to be seen and heard for themselves. Jagmeet went to law school to stack his tool box to fight the powerful forces of poverty and racism. As a lawyer, he knew he could help those with little power and money to assert their own rights. He campaigned with anti-poverty groups and immigrant and refugee organizations for changes that would make people's lives better. As a young man, his father became ill and he had to step up to care for his family. He experienced precarity and understood how important it is to have people around who care and can help. That's just one of the reasons why he wants to help others. Jagmeet decided to run for office because too many government choices were hurting people, rather than helping them get ahead. As an MPP, Jagmeet took on auto insurance companies to end the exploitation of people. He fought for fair coverage at a fair price. Jagmeet also fought for workers at temporary job agencies so that they could get the security they deserve. He was tenacious about convincing the government to commit to ending arbitrary street checks or "carding". As Leader of Canada's NDP, Jagmeet believes that how we pay for and deliver services to Canadians must work everyone.</p>
Navrina Singh	Co-Founder, Credo AI, USA	<p>Navrina is the Co-Founder of Credo AI, an AI Fund company focused on auditing and governing Machine Learning.
