1/ In a leaked video, a research team commissioned by the Israeli MoH warns: "We'll have to think medical-legal – how to present our findings to avoid lawsuits. Why? Because of quite a few side effects we said: 'OK, it exists and reports exist, BUT STILL GET VACCINATED'".

2/ In the zoom meeting, which took place in early June, the research team reports to MoH senior staff on its' findings regarding the safety of the Pfizer vaccine, based on an analysis of SE reports received from Dec. 2021 to May 2022 from a new reporting system launched Dec 2021.

3/ The findings revealed a range of long-term SEs, including ones not listed by Pfizer, and a high rate of rechallenge (recurrence of an SE after repeated doses), which as the team repeatedly stresses, establish causal relations with the vaccine.

פגועת כמערכת עיכול, כליה ומערכת שתן בדוחו כטקסט חופשי, התפלגות ע"פ קבוצת גיל

31.5.22- דוחו כטקסט חופשי 192 תאפעות שסווגו כמערכת עיכול, כליה ומערכת שתן.

הגוף הבא מתאר את התפלגות התאפעות ע"פ קבוצת גיל.

קבוצת גיל	מספר תאפעות מיוחסות
גיל >18	~165
קבוצת גיל 5-11	~30
קבוצת גיל 12-17	~7

קבוצת גיל	אוזרים (%)
גיל >18	78%
קבוצת גיל 5-11	19%
קבוצת גיל 12-17	3%

4/Nevertheless, the IMOH withheld the findings for 2 months, even from their own expert committee which decided 3 weeks later to clear the vaccine for infants. Only on August 9, two months later, the IMoH decided to publish a formal report:

5/ Yet, in contrast to the researchers' findings and conclusions presented to them – the IMoH blatantly claimed in the report that there were NO NEW SIGNALS found in the study that are not already known.

6/They also manipulated the reporting rate of AEs by using a denominator of TOTAL doses administered ~18 million. The new reporting system was launched on Dec 2021 when majority of Israelis already got 2-3 doses, which means -AEs in the study represent a tiny portion of vaccines

7/ Even worse! They calculated the denominator of vaccines against the reports of menstrual irregularities using TOTAL NUMBER OF ADULT DOSES – meaning, men were included in the equation of how common menstrual irregularities were.

ההפרעות במחזור חולפות?

משרד הבריאות מרגיע: במחקר תופעות הלוואי לא נמצאו דיווחים של גברים על הפרעות במחזור זו נשמעת לכם בדיחה? אם זה לא היה עצוב, גם אנחנו היינו שמחים להתבדח על זה אבל כך בדיוק מדווח משרד הבריאות על הפרעות במחזור.

8/And if all this is not enough, the MoH also framed the findings as representing the ENTIRE POPULATION, hiding the fact that only one small HMO out of the 4 operating in Israel handed over their reports, thus the study only covers ~15% of the population

מי קיבל את ההחלטה להסתיר את העובדה שהמידע על תופעות הלוואי הגיע רק מקופת חולים קטנה אחת?

סירטון נוסף מפגישת הזום שנחשפה: ככה נראית הטעיה הקשיבו היטב למה אומרים החוקרים בהקלטת הדיון: הדיווחים נאספו רק מקופת חולים אחת קטנה - קופת חולים מאוחדת, שמשקפת רק כ-15% מהציבור. למרות זאת הם הוצגו בהשקפה כאלו שהם מייצגים את כלל אוכלוסיית ישראל.

9/ Despite the importance of this meeting, Dr. Sharon Alroi Preis, head of Health Services in the MOH who is signed on the contract with Pfizer, does not participate. The researchers repeatedly ask MoH officials to make sure dr. Preis gets their findings

נקיפות מצפון על אי שיתוף הנתונים? רק אצל החוקרים כנראה

נקיפות מצפון של חוקרים ומי זו השרון שהם מחפשים? הערב סרטון נוסף מהדיון הסגור במשרד הבריאות אז סוף סוף, אחרי שנה שלמה שבה למדינת ישראל, "המעבדה של העולם", לא הייתה מערכת דיווח תופעות לוואי מתפקדת - השנ

The @LFG_org is creating a #Bitcoin reserve to defend the peg of @terra_money stablecoins like \$UST. The question is: How does it work & what effect will it have on \$LUNA, the Terra ecosystem, or even \$BTC? Let's check the governance proposal by @jump_ & make a deep dive 📖📄/n

1/ First, and very important: Neither the #Bitcoin reserve nor LUNA is backing UST as a form of collateral. Unlike other stablecoins backed by fiat or over-collateralized by crypto

I'm seeing a lot of people on the right share this meme. While it may be a strong satirical response to those who get lost in nuance, it fundamentally fails to recognize why the left wants to talk to your kids about sexuality. Let's connect some dots. 📖 1/23

The left doesn't want to diddle kids. They want to create little revolutionaries. To do that they need to sever the bond between students and the parents they believe are raising

Thread: some still open contradictions in my thoughts and my values, that I have been thinking about but still don't feel like I've fully resolved.

Contradiction between my desire to see Ethereum become a more Bitcoin-like system emphasizing long-term stability and stability, including culturally, and my realization that getting there requires quite a lot of active coordinated short-term change.
