1/ THREAD 🚩 [#PfizerFiles](#)

Pfizer has habitually engaged in illegal and corrupt marketing practices, bribed physicians, & suppressed adverse trial results.

This is no secret, yet this fact continues to be brushed under the rug by politicians & the media.

Pfizer's History of Fraud, Corruption, and Using Nigerian Children as 'Human Guinea Pigs'

How did Pfizer manage to rebrand itself as the savior of humanity?

<https://kanekoa.substack.com/p/pfizers-history-of-fraud-corruption>

2/ Pfizer's CEO [@AlbertBourla](#) claimed during a November 2021 interview that a group of “medical professionals” intentionally circulating “misinformation” critical of the Pfizer vaccine were “criminals.”

The Pfizer CEO must have forgotten the history of his own company.

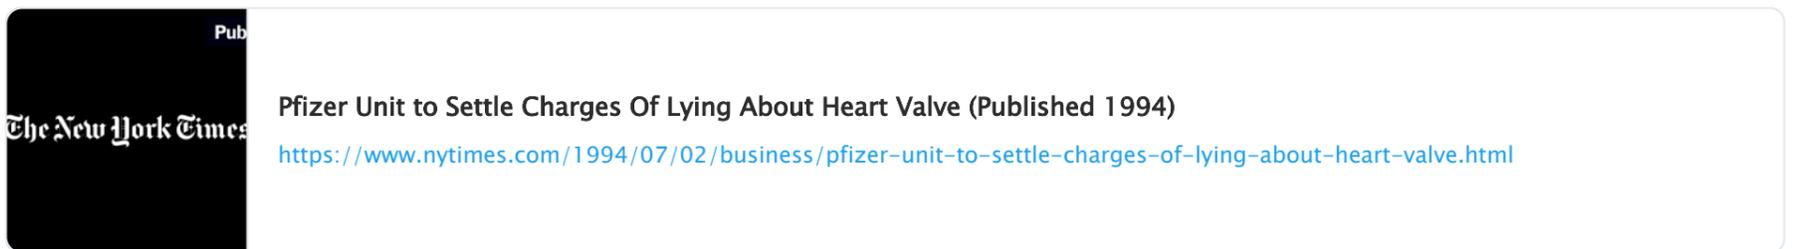

3/ In 1994, Pfizer paid the Justice Department to settle claims that the company lied to get federal approval for a heart valve and then covered up safety concerns even as the device killed hundreds of patients.

Pfizer paid \$200M to settle lawsuits.

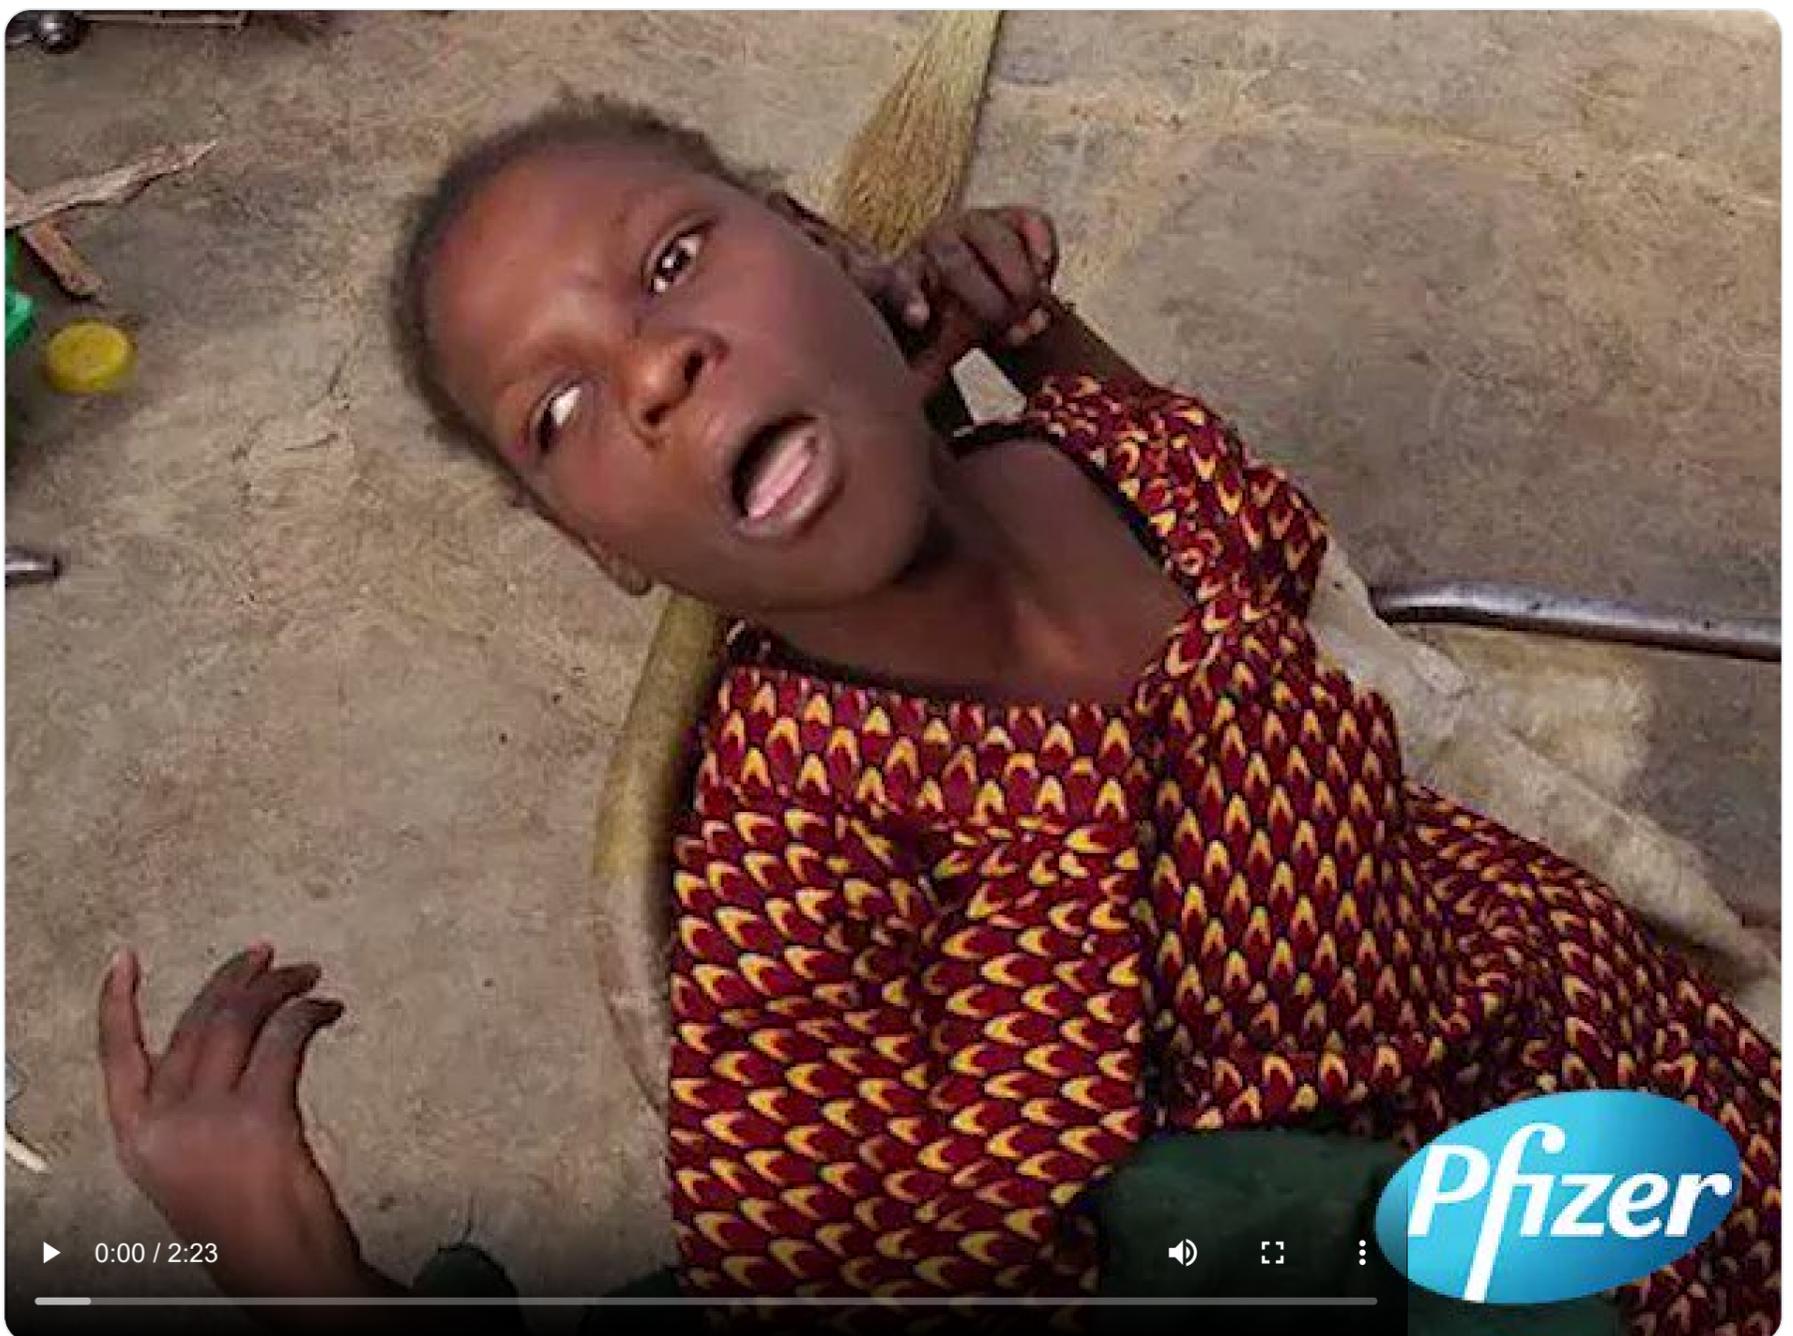

[nytimes.com/1994/07/02/bus...](https://www.nytimes.com/1994/07/02/bus...)

4/ In 1996, Pfizer gave an experimental drug to 200 Nigerian children without informing their parents that an approved cure existed or that their children were subjects of a medical experiment.

Eleven children died.

Others suffered brain damage, organ failure, or paralysis.

5/ In 2001, Pfizer was sued on behalf of 30 Nigerian families who alleged their "children were used as human guinea pigs."

The families claimed Pfizer violated the Nuremberg Code and exposed their children to "cruel, inhuman, and degrading treatment."

The case was dismissed.

Share

6/ In 2007, the Nigerian government sued Pfizer for \$7 billion and accused the company of "carrying out illegal trials" that "killed or disabled children."

Nigeria claimed Pfizer did not inform local health authorities or parents that the children were part of an experiment.

7/ It gets even worse.

In 2010, leaked State Department cables alleged that Pfizer had hired investigators to blackmail Nigeria's Attorney General into dropping the \$7 billion lawsuit against Pfizer.

[theguardian.com/business/2010/...](https://www.theguardian.com/business/2010/...)

WikiLeaks cables: Pfizer 'used dirty tricks to avoid clinical trial payout'

Drug giant hired investigators to find evidence of corruption on Nigerian attorney general in order to persuade him to drop legal action

<https://www.theguardian.com/business/2010/dec/09/wikileaks-cables-pfizer-nigeria>

8/ The leaked cables claimed Pfizer passed "a series of damaging articles" to the media that accused the Attorney General of corruption and warned him that more negative articles would come out if he didn't drop the case.

Nigeria dropped the case in 2009.

9/ In 2009, Pfizer agreed to pay \$40 million to settle allegations that the drug company defrauded the federal

<https://www.nytimes.com/2002/10/29/business/pfizer-to-pay-49-million-in-fraud-case.html>

10/ In 2008, the NYT published an article entitled, “Experts Conclude Pfizer Manipulated Studies.”

Pfizer delayed the publication of negative studies, spun negative data more positively, and suppressed negative findings to promote Neurontin.

[nytimes.com/2008/10/08/hea...](https://www.nytimes.com/2008/10/08/hea...)

Experts Conclude Pfizer Manipulated Studies (Published 2008)
The drug maker manipulated the publication of studies to bolster use of its epilepsy drug Neurontin, according to expert witnesses in a lawsuit against the company.
<https://www.nytimes.com/2008/10/08/health/research/08drug.html>

11/ Dr. Kay Dickersin, a John Hopkins Professor of Medicine, who reviewed the Pfizer studies, concluded that 80% of the positive studies were published in full journal articles.

Yet, only 38% of negative studies were published, and some only partially.

<https://www.nytimes.com/2008/10/08/health/research/08drug.html>

12/ In 2009, Pfizer paid \$750M to settle 35,000 claims that its drug, Rezulin, was responsible for 63 deaths and dozens of liver failures.

The FDA did not remove Rezulin from the market until three years after the UK had, despite a mounting death toll.

15/ CNN's Anderson Cooper: If Pfizer is too big to fail and even the biggest fine in history is just a few months' profits, then what's going to stop it from illegally promoting other drugs?

Critics say nothing.

They say it's the cost of doing business.

16/ In 2010, Pfizer was ordered to pay \$142 million in damages for violating federal anti-racketeering laws by its fraudulent sale and marketing of Neurontin.

The jury found that Pfizer violated the RICO act.

Neurontin Lawsuits – Pfizer Illegal Marketing, Injury Claims

Pfizer Marketing Illegal Neurontin. Pfizer Inc. has been ordered to pay \$142.1M in damages for violating a federal antiracketeering law in its marketing.

<https://www.yourlawyer.com/defective-drugs/neurontin/illegal-neurontin-marketing/>

17/ In 2010, Pfizer admitted that it paid \$20 million to 4,500 doctors and other medical professionals for consulting and speaking on its behalf during the last six months of 2009.

The disclosure was required due to a settlement agreement for the illegal promotion of drugs.

18/ In 2010, Blue Cross filed a lawsuit against Pfizer, accusing the pharmaceutical giant of illegally bribing 5,000 doctors with lavish Caribbean vacations, golf games, cash payments, massages, and other recreational activities.

[cbsnews.com/news/blue-cros...](https://www.cbsnews.com/news/blue-cross-...)

Blue Cross Names and Shames Pfizer Execs Linked to Massages-for-Prescriptions Push

25/ Pfizer has habitually engaged in illegal and corrupt marketing practices, bribed physicians, and suppressed adverse trial results.

This is no secret, yet big government, big tech, and big media banned scientific criticism of Pfizer's covid-19 vaccines.

26/ This Pfizer presentation got Dr. Robert Malone (@RWMaloneMD) banned from Twitter.

"Pfizer's own 6-month report data on its COVID-19 inoculation shows greater illness and death in the inoculation arm than the placebo arm."

The Powerful Pfizer Presentation That Got Dr. Robert Malone Kicked Off Twitter
 Pfizer's own vaccine trial data shows an INCREASED risk of illness and death for the vaccinated.
<https://kanekoa.substack.com/p/the-powerful-pfizer-presentation>

27/ @RWMaloneMD tells @joerogan that he was banned for sharing:

"...a fantastic video... by the Covid Care Alliance group that summarizes all the malfeasance, and data

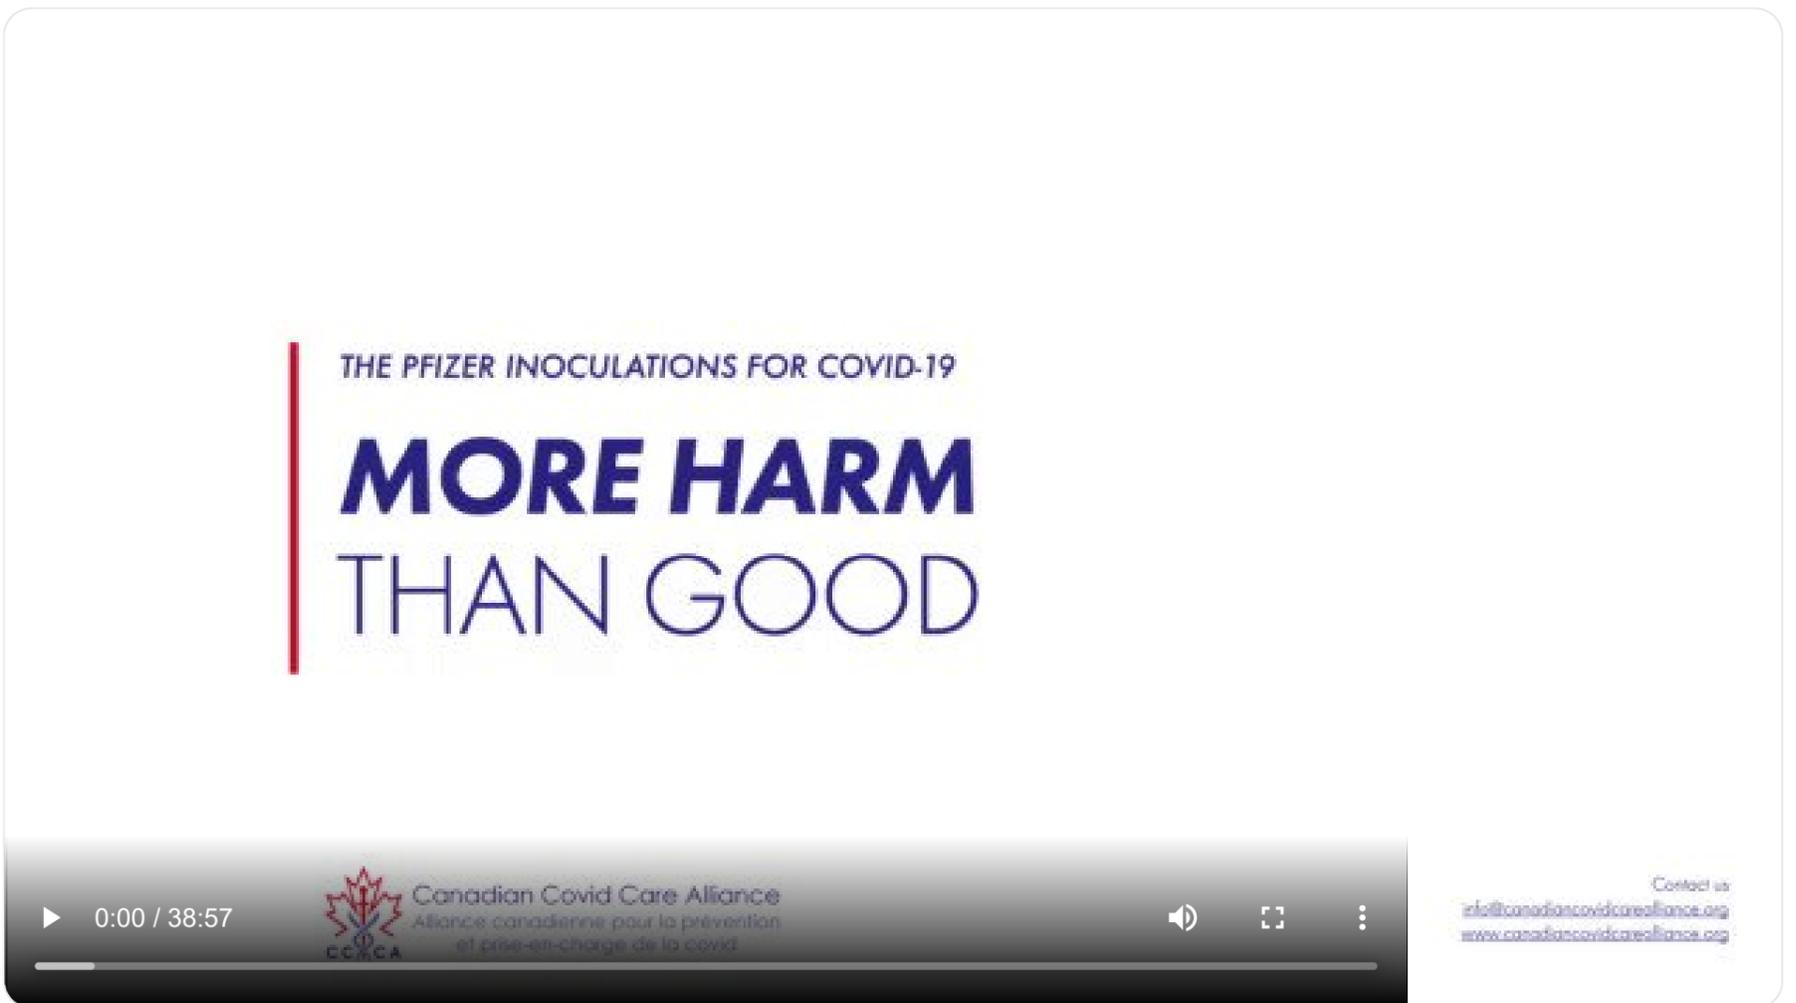

manipulation, and misinterpretation of the Pfizer vaccines, and their clinical trials."

28/ Dr. Robert Malone (@RWMaloneMD) was banned from Twitter for sharing this 40-minute video presentation created by the @CCCAAlliance, a coalition of over 500 independent doctors, scientists, and health care practitioners.

Can we discuss it now?

canadiancovidcarealliance.org/wp-content/upl...

29/ The video is a fact-based scientific critique of Pfizer's covid-19 vaccine clinical trials.

Follow Us on Twitter!

Tweet Share

30/ The [@CCCAlliance](#) alleged that 84% of the Pfizer report authors had a conflict of interest.

They were either employed, owned stock, or received grants from Pfizer.

For example, the two BioNTech founders, who gained more than \$9 billion from the vax, co-authored the report.

31/ Pfizer unblinded the trial after two months ruining long-term safety data & did not track biomarkers before & after vaccination:

- D-dimer for clotting
- C-reactive protein for inflammation
- Troponins for cardiac damage
- Blood oxygen for hypoxia
- Amyloid for Alzheimer's

32/ It was left to the discretion of Pfizer's investigators whether or not to test participants for covid-19.

They did not test 3,410 suspected cases (1,594 vaccinated & 1,816 placebos) who were symptomatic with covid-19.

Why didn't Pfizer remove subjectivity & test everyone?

33/ [@CCCAlliance](#): Pfizer's 6-month report shows a 300% increase in related adverse events, a 75% increase in severe adverse events, and a 10% increase in serious adverse events for the vaccinated group versus the placebo.

Why is there an increase in all-cause illnesses?

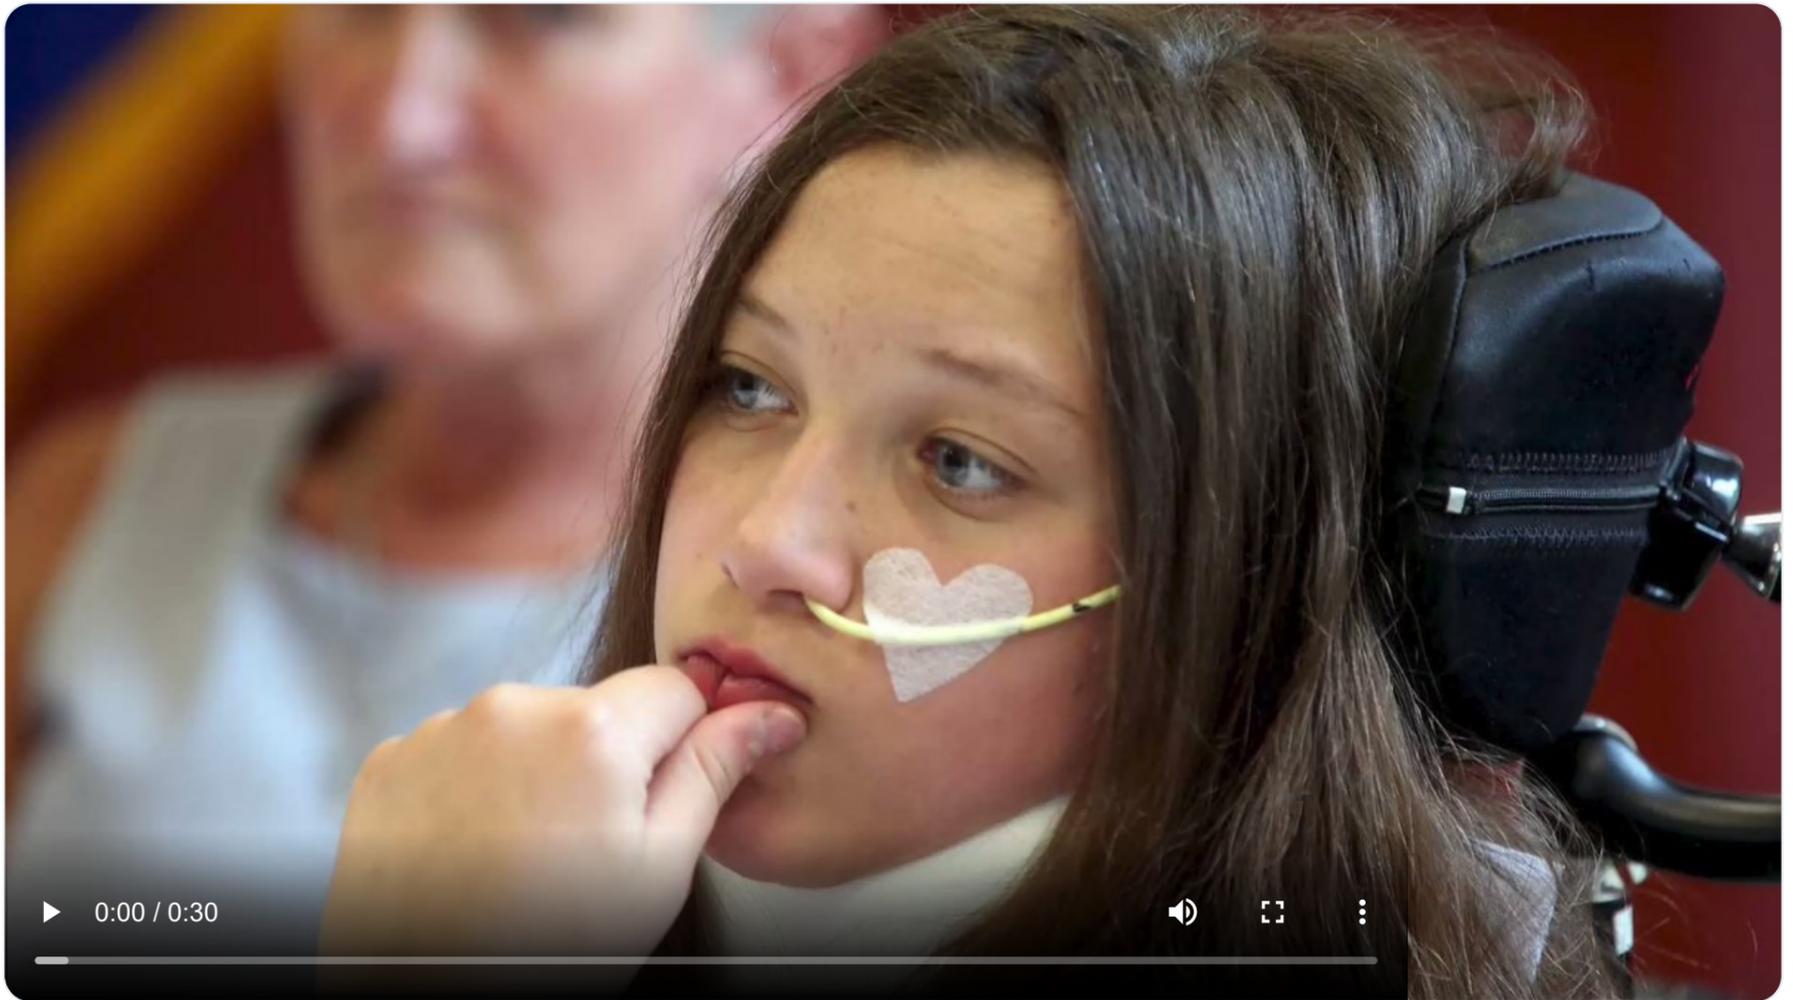

34/ [@CCCAlliance](#): Pfizer's 6-month report shows 20 deaths in the vaccinated group versus 14 deaths in the placebo group and 9 cardiovascular deaths in the vaccinated group versus 5 in the placebo group.

Why didn't Pfizer make the clinical trial endpoint all-cause mortality?

35/ Maddie de Garay was 1 of 1,131 children in Pfizer's clinical trial for children aged 12-15.

Pfizer officially recorded Maddie's paralysis and neurological disorder as "abdominal pain" when reporting clinical

trial results to the FDA.

36/ [@IamBrookJackson](#), a regional clinical trial director, reported to the FDA that Pfizer had falsified data, unblinded participants, and not followed up on testing symptomatic participants.

She was fired, and the FDA & Pfizer never investigated the issue.

37/ In 2020, the pharmaceutical industry spent \$4.5 billion on TV advertising in the United States, accounting for 75% of all ads.

In 2021, Pfizer alone spent \$2 billion on advertising across print, digital, and TV.

Big Pharma buys positive media coverage.

38/ Pfizer reported a 95% efficacy, which sounds like it protects you 95% of the time, but that 95% actually refers to the Relative Risk Reduction (RRR).

In contrast, the Absolute Risk Reduction (ARR) was only 0.84%.

The [@CCCAliance](#) report explains the difference.

39/ 9 out of 10 of the FDA's commissioners between 2006 and 2019 went on to work for the pharmaceutical companies they were in charge of regulating.
