### **Introduction**

CG: UN, is, how I can say, is almost, in a position of collapse. You know? And the Club of Rome, as well. So, in my opinion, all these institutions, are already, how I can say, control, not only from now, by oligarchs. Just to give you an example, the UN is very, very strongly related to its World Economic Forum in Davos.

So whatever the World Economic Forum dictates, UN follows, which is which is amazing what is going on.

The situation is almost changed, and nobody can stop this wave. Nobody can stop this wave. It's just a matter of fact. So in in any case, even that the justice is not straight, is not the justice, in fact. The power of the people on the street and the pressure will impose that change.

**AJ: I totally agree with you. The globalist are already beaten. They're just hanging on for as long as they can.**

**You are the president. They admit you were the winner. And the fact that they're now bragging at the EU that will do it in Germany and cancel until the AfD win - if they win, is extreme arrogance. And could you just speak to that? I mean, this is one of the most naked coups I've ever seen in the last 100 years, and I study history. This is flagrantly out of the open. Why do you think they're so arrogant? And as you said, your own media keeps acting like it's not a coup, but then the EU and NATO leaders are bragging.**

Former EU Commissioner admits that the EU was responsible for the cancellation of the elections in Romania

"We did it in Romania, and we will do it in Germany if necessary."

CG: Yeah. Because they are disparate [and] they make, they are doing a lot of mistakes. And, simply, as I said, they are disparate [not] to lose their position, and they know that. They know that [they have] already lost, I'm telling you, frankly.

They know. But it's just a matter of time until the moment when not only Romania, but a lot of countries will be free again. And this we can see with our eyes everywhere, everywhere. For this reason, of course, it's not very easy to change the situation. And I'm telling you frankly, because they cancelled, they cancelled the elections, in December, 6. This give to us - as the Romanian people, the great people, as I said, the historical one - they give to us the power to be again together.

I declare that I will be a president of people, by the people, for the people of Romania. And, of course, they don't need the people to be present. They don't need the sovereignty of the people. They don't need the people to elect their self and to vote their self their person in order to represent them for welfare, for peace, for

families. When I said particularly, I want to be a president to protect the children, to protect the families. They're already alert because they need the society to be divide[d]. And this is the most important point, which is not only Romania. It's everywhere, as you know very well. So, for this reason, we are looking to the President Trump in order to act about these situations and to give the real signal everywhere that the big shift and the change is already start[ing]. And here we are, and there are a lot of peoples and countries which they are coming.

You have seen also the situation in, in Africa, many countries, which they don't want to be anymore related with the colonialist system, particularly from from Europe. Look what is happening in Asia, what is happening also in Europe. So, there are a lot of places where we can see with our eyes that the people, they want to become again free. And this is very important for all of us.

### **Clip inserted of President-elect Donald Trump at a news conference**

Q: On Ukraine, you said just before, it's a lot more complicated now.

Trump: Much more complicated.

Q: Do you believe ...

Trump: Because it would have never started.

Q: Right. But it has started. It's you ...

Trump: Well, not only started. The cities are largely knocked down.

Q: They're got what you've got. At this point, to hold on the leverage in dealing with, President Putin, would you make a commitment to the Ukrainians that you will keep supporting them during the negotiation?

Trump: Well, I wouldn't tell you if that were the case.

Q: Make a commitment to provide a security guarantee if they do enter into a armistice or a ceasefire along the lines of the French and the Germans.

Trump: So, you know, a big part of the problem was Russia for many, many years, long before Putin said, 'You could never have NATO involved with Ukraine'. Now they've said that, that's been, like, written in stone. And somewhere along the line, Biden said, 'no they should be able to join NATO'. Well, then Russia has somebody right on their doorstep, and I could understand their feeling about that. But there were a lot of mistakes made in that negotiation. And when I heard the way that Biden was negotiating, I said, 'You're gonna end up in a war'. And it turned out to be a very bad war. And it could escalate. That war could escalate to be much worse than it is right now.

Q: Does that mean they can never join NATO?

Trump; Well, my view is that it was always understood. In fact, I believe that they had a deal, and then Biden broke it. They had a deal, which would have been a satisfactory deal to Ukraine and everybody else, but that Biden said, 'No, you have to be able to join NATO'. And that's always been, and nobody knows more about

NATO, than - you know, years ago, when I first started this, I didn't know too much about NATO, but I got it right anyway. I said they're taking advantage.

I'm the one that got - and the secretary general was here, as you know, two weeks ago saying that if it weren't for me, NATO wouldn't even exist right now because I raised - from countries that weren't paying their bills, at that time, 28 countries, 20 of them were not paying their bills, 21 to be exact. They weren't paying, or they were paying a very small portion. And I raised over \$680 billion, that was the number he gave, by saying, if you don't pay, we're not gonna protect you. And as soon as I said that, the money came pouring in.

But Obama could have said it, other people could have said it, Bush could have said it, nobody said it but me. I took a lot of heat. They said, 'Oh, that's a threatening statement'. Well, they weren't paying their bills. I said, we're not gonna protect if you're not paying the bills. So, in a true sense, I saved NATO, but NATO's taken advantage of us.

And one of the problems that I have, and I've said it openly, I said it to President Zelensky, Europe is in for a tiny fraction of the money that we're in. Now whether you like that situation or not, Europe is much more affected than the United States. We have a thing called the ocean in between us. Right?

Why are we in for billions and billions of dollars, more money than Europe? And, you know, they're a similar size, a little smaller, but they're a similar size economy as the United States when you add them up. And yet Europe is in for a small fraction of the number the United States is in.

Now, Biden could have called them up during the term. That's what I did. I said, you have to pay your bills. And they all - one stood up. I won't say who, you'll probably have it, because the papers, the media hated to report on it. But a prime minister stood up from a country, you know, a famous meeting of 28 nations with no press, no anybody in the room. He stood up. He says, 'Does that mean if we don't pay our bill', and at that point it was 2%, it should be 5%. It should be 5%, not 2%. But at that point, it was 2%, but many people didn't pay. Some people didn't pay anything, but many people were away, including Germany. Germany was at less than 1%.

Q: You're gonna press for 5%?

Trump: Well, I think NATO should have 5%. Yeah.

Q: Don't want Ukraine to

Trump: Well, you can't do it at 2. I mean, at 2%, every country - if you're gonna have a country in a regular military, you're at 4%. I think they should be you know, they're in dangerous territory. I think you should be they can all afford it, but they should be at 5%, not 2%. I'm the one that got up to pay 2%.

But a gentleman stood up, a prime minister stood up, and he said to me, 'Sir, could I ask you a question? You're saying we have to pay our bills. If we don't pay our bills, will the United States protect us from Russia?' I said, 'If you don't pay, you mean

you're delinquent?' He said, 'Yes'. He said, 'If you're delinquent, we will not protect you'.

I took a lot of heat. Although it was somewhat closed door, I took a lot of heat from the media. And you know what happened? The money started pouring in. That's why NATO has money. And the secretary general said, it was the most incredible thing he had ever seen in a negotiation. Now if I would have said, 'Yes, we will [protect you]', nobody would have paid.

I would have loved to say, 'Yes, we'll protect you even if you don't pay', but that's not the way life works.

**Interview (begins at timestamp 9:32)**

**AJ: Călin Georgescu is in the top 4 or 5 biggest guests, most important guests, we've ever had on, including people like President Trump. I mean, I've known about this guy for at least 6, 7, 8 years, and he's been obviously way more prominent in Europe.**

**But he is not just a former top UN diplomat. He was one of the top people in the Club of Rome which is the main globalist think tank that develops global depopulation plans.**

**And I remember years ago, I asked the producers to try to get him on. I don't know what happened there, but we didn't. So, I feel like I know him.**

**Then, as you know, 3, 4 weeks ago, he wins, in a landslide, the Romanian election promising to stop World War III. Remember, they've been shooting and trying to kill other leaders in Europe who have been trying to stop nuclear war.**

**And then NATO and the EU come out - and I have all the articles right here and videos - and go on national, international, EU, German television, French television, and say, 'Yeah. We just staged a coup over Romania, and we'll do it in Germany if AfD wins', who's also trying to stop nuclear war.**

**Now, folks, think - he'll be with us for the rest of the hour. He's so gracious. He's so busy. Millions of his fellow Romanians have been demonstrating non-stop for weeks, crescendoing the last few days, demanding that the admitted installed NATO-EU government follow the election and of their democratic country.**

[Video clip inserted of a demonstration in Romania]

**I mean, this footage here is nothing. Show the footage from Sunday that shows millions [of people]. It just goes on and on and on.**

**So, this is massive. Because now Poland, Germany, France, England, the UK, they're saying, 'We'll just have the governor-general suspend parliament because they were about to vote out Justin Trudeau'. 'We'll just cancel elections in the UK if Labour's about to be kicked out, their big paedophile scandal'. 'We'll just suspend and throw out the election if AfD wins', and**

they've just done it in Romania. As I said almost a month ago, I said, this is extremely dangerous. This is the EU and NATO, and they're gonna do it all over the place. They get away with it, and now they're saying it on national television - EU commissioners, and former commissioners. 'What we did in Romania, and we'll do it again in Germany if necessary', says former French European commissioner Thierry Breton.

So, I'm gonna try to go to our very special guest [Călin Georgescu] and give him the floor here to speak. He speaks great English. But understand, ladies and gentlemen, that 17 years working within the United Nations serving as the [OHCHR Special Rapporteur](#) on the adverse effects of transportation of toxic and hazardous products and human rights, Project Director of the UNDP, UNEP representative for Romania's National Council, executive director of the UN Institute for the Global Sustainability Index; that's the model of the whole global ESG system. I mean, this guy's at the top.

He served as president of the European Research Council for the Club of Rome. I mean, that's the top. 2013, 2015 and was a member of the International Club of Rome in Switzerland.

I'm gonna stop there because we've only got 45 minutes, 50 minutes left with him. You gotta go - after he leaves, I will read the bio upfront when we're still live next hour, and I'll tag it on the front of this when we upload it to X. This needs to get a 100 million views.

So, Călin Georgescu just had his victory stolen from him. He is the admitted president of Romania. They're not even denying they took it from him and the people of Romania. And they're saying it's the model for everywhere else. And since then, they've dissolved parliament in Canada, and Trudeau's not resigning. And, that's not even a major news issue.

So, Călin, thank you so much for your time, sir. We really appreciate you. We could talk about what's happened with the election, the big demonstrations against it, all the things that are happening. But to me, go there first if you think it's best, but the time we have I'm gonna just don't stop because I'm trying to give you the floor. Maybe we should go back to the beginning about who you are, what you did, top diplomat, directing one of the top systems for the UN, developing their entire scoring system for global government. I mean, you are a true insider. And then your whole process of being read into what it was really about, which you've exposed before, but I want you to recap for those that don't know, and then going to your country, galvanising the people, leading them back into freedom, and helping bring the world on the verge of nuclear war, and then they stage a coup against you and your people and then admit it's a coup. This is unprecedented. So, sir, that's a long introduction. Thank you so much.

CG: Thank you. Thank you so much. Thank you, Alex. Thank you for having me today. And I very much appreciate your introduction, which is amazing, in the sense of the spirit of Romanian people because this is the most important point. Great and historical nation, speaking about, Romania. I'm very proud that I'm part of [the] Romanian nation. I am very proud that I'm Romanian. But nevertheless, that we have to take care about our humanity. I think this is the most important point of the game.

And, I think Romania demonstrate, Alex, the last month, to say like this - because one month we have from this in December - that, we don't play games. We don't play games and we are looking for our freedom, for our democracy back. And we are, we strongly believe in God and in our land. And I think it's, precedent for all the nations in order to be free. This is the most important point, I guess.

**AJ: Absolutely. So, let's start then at the current events, your election, what happened, your response to current EU commissioners, [Ursula] von der Leyen, the former commissioners. 'We're gonna' just like we did in Romania, we're gonna cancel Germany'. And then the big protest and what the process is. And now the security services and your kangaroo courts like we saw with Trump are nullifying the election, what that process is, and then let's go back to your awakening because you're a real insider on what we're facing.**

CG: Yeah. So, actually, the first round of election in Romania for the president was in November, 24th November [of] the last year. And, after this the first round, I was located in the first position was, 23%, I guess, 23-24%.

And, another person, a lady, was located in the second position with 19%. So, everything was okay, particularly that, the constitutional court of Romania, the secret service, the presidential administration institution, they confirmed the clean, let's say, the clean situation of the elections in a sense that, everything was okay.

And, 3 days [later], was the last confirmation of the institutional, let's say, legacy. And on Friday, December 6th, when already was start [of] the elections in the votes outside of Romania, They already probably [had] more than 2,000 - 3,000 voters in the afternoon of Friday 6th, [and] simply they cancelled the election.

And the 2nd round of the elections was illegally and unconstitutionally cancelled. Simply, they stolen the vote. And, of course, for Sunday, which was the day, December 8, was not anymore available for the elections in Romania. I just started I said Friday outside of Romania, but they cancelled the vote - again, illegally and unconstitutionally, and they stolen the vote - and simply they don't say anything more about that. Just that, they have they suspect, as I said, Russian influence to the elections.

Moreover, in the last part of December in Brazil, the former president had a press conference and the journalist asked him, 'Do we have facts for this cancellation?' And he said, 'We just suspect. We have suspicion on that, but we have not facts'. And the journalist asked him, 'Okay, but how [do] you decide to cancel if you don't have facts?' And he said, 'We continue to see and to find the facts, but we have just suspicion'.

So, in any case, in my opinion, this sets a dangerous precedent, not only for Romania but for the whole world. Because simply they destroy the democracy, they cancelled the free elections. And, in my opinion, now Romania is in a revolutionary situation because thousands and thousands of peoples are permanently on the street, Alex, nonstop. And, the people are aware of the fact that this was a *coup d'état* ordered from abroad and implemented by the globalist system, by the oligarch system in Romania.

And we have definitely a confirmation that during the campaign, Alex, I promote permanent peace, the peace in the region and to stop the war, urgently to stop the war in Ukraine.

**AJ: And that was my next question, sir, is why are they so scared of you? And I know. I know why they're scared. You're not some Russian operative. You've been an anti-globalist Christian pro-human who was one of their insiders. That's a whole other question we'll get to. How did you get to the top and then sorry. Go ahead.**

CG: Yeah. So, of course, I have nothing to do with Russia. I don't know nobody, just few people in the sense of scientist people there. I have nothing to do with the politicians in Russia, nothing to do with nobody there. Of course, everything was, demonstrate about these things, but, again, the point is that they are alert by the word "peace" because they need war. Simply like that.

And I find that, European Union here is the political arm of [the] Globalists, and NATO is the military arm. Because also in your presentation, I find that you said about, Terry Breton. Correct? Yeah.

**AJ: Yes, sir.**

CG: And, I can tell you that more than that, Ursula von der Leyen was involved in that. And, we have also facts about the conversation with the Liberal Party in Romania. There are effects on that because simply they are desperate that someone like me, whatever, will stop the war in Ukraine. Because this is the most important part of what we find and how the corruption was exposed, what they want to do.

And more than that, I want to tell you, [for] first time official[ly], that NATO, we find that, took over the military leadership from the US in the respect to support and to help Ukraine. So, it's, in other words, the most important thing which I want to underline, Alex, is that NATO is looking as [it] is divided in two because President Trump is looking for peace. Correct? Permanently, he said. And they want to do something different in a sense that to divide NATO - NATO, which is supported by the European Union in order to control the situation in Ukraine. And this is a very, very dangerous aspect. And, of course, it's a dramatic situation, I can say, if they are doing that because look that they want to do that before the official nomination on 20 [January] of President Trump.

**AJ: Well, they've said that. They've said that. I remember what happened to [Robert] Fico, the PM of Slovakia, what, 5, 6 months - they shot him at least 4 times. He barely survived all because he, and it was obviously a Ukrainian-**

**connected NATO operative. So you're in serious danger. I'm not trying to be dramatic here. Obviously, you're a smart man. You know that. But this is serious business. Viktor Orbán [Prime Minister of Hungary], Prime Minister Fico, you, sir. I mean, the globalists have taken the gloves off.**

CG: Yes. Indeed. So, a significant part of this war is invisible. This is my opinion. And more than that, I want to tell you that this precedent beside this situation which is very, very bad, is a precedent also for the, the spirit of the Romanian people which is permanent on the street and is permanently on the position to protect our democracy, to protect our freedom. And this, I think, could be a precedent for all the nations and for the whole world because it's a fantastic and, fantastic position, which the Romanian people they have today.

Besides, as you said, the President Fico, Prime Minister Orbán and, of course, myself, just all these 3 in the situation in Europe. But the situation of Europe is very, very difficult right now because they invest a lot a lot of money in this war. But in any case, the wave is coming because you have seen the situation in Austria. You have seen the situation in Croatia, which also, a leader, a real leader ...

**AJ: That's right. I forgot to add. They've been trying to block the election results in Austria for over a month.**

CG: Yeah. Yeah. Exactly. But in any case, important is that the wave is coming, and it's a snowball effect of the sovereignty, not only in Europe, but in [the] whole world.

And, of course, I really hope that President Trump will act about this situation as soon as he is confirmed on January 20. This is very important position, which we are looking all of us.

**AJ: Yeah. Yes, sir. I'm sure you're already doing this, but I would advise you, to, we can get you in contact with his top people. But just go there when he's there. He will he will meet you, and believe me, you need to, come meet with president Trump. Obviously, that'd be a very dangerous trip because they know that's the right move. But, Trump, I know, is aware of the situation, but if he meets with you and learns the details, that, that would be THE move.**

CG: Yeah. Look. What I want to mention here is, that the legacy media notified permanently a wrong situation in Ukraine. In definitely my opinion, Zelensky won the PR [public relations] war, but Putin won the real war. And, it's, how I can say, it's a manipulation of the information permanently in a sense to push permanently to the people. First of all, to be free, to be afraid about the situation, to keep the people, in this situation, on the war, and they have to clean their corruption, which is behind the wall.

And we assist, Alex, to a big shift, which will happen very soon. Which in fact has happened already and [it's] absolutely clear. And they are desperate. They lost their position and they lost this dramatical situation which is now. But in fact, the people, they are aware, that they need their free[dom], they need their democracy. And this is a very important point.

**AJ: Yeah. Yeah. Yeah. Yeah, sir ..**

CG: We are looking to the ... yes, please.

**AJ: I was just gonna say, sir, we got 30 minutes coming up after this break. It's great you managed to be here. I know you're very busy and in a very critical situation.**

**President Georgescu, you are the president, they admit you were the winner. And the fact that they're now bragging at the EU that they'll do it in Germany and cancel the AfD win, if they win, is extreme arrogance. And could you just speak to that? I mean, this is one of the most naked coups I've ever seen in the last 100 years, and I've studied history. This is flagrantly out of the open. Why do you think they're so arrogant?**

**And as you said, your own media keeps acting like it's not a coup, but then the EU and NATO leaders are bragging.**

CG: Yeah. Because they are dispartes. They make, they are doing a lot of mistakes. And, simply, as I said, they are disparate [not] to lose their position, and they know that. They know they already lost, I'm telling you, frankly. They know. But it's just a matter of time until the moment when not only Romania, but a lot of countries will be free again.

And this we can see with our eyes everywhere, everywhere. For this reason, of course, it's not very easy to change the situation. And I'm telling you frankly, because they cancelled, they cancelled the elections, in December 6. This give to us as the Romanian people, the great people, as I said, the historical one, they give to us the power to be again together.

**AJ: President, this is a key point. President Georgescu, the President of Romania is our guest.**

[Advert inserted]

**AJ: The true President of Romania, Călin Georgescu, is our guest. And this is just such epic times how it's being normalised. They just suspended Parliament in Canada because they were gonna vote Trudeau out. He said, 'I'll resign someday', and now Starmer's talking about cancelling elections.**

[Note from The Exposé: Keir Starmer's Labour government has faced criticism for proposing to delay some local elections originally scheduled for May 2025. The Government claims this is due to council reorganisation but opponents argue it is an attempt to dodge accountability and tighten Labour's grip on power. This move has been described as unprecedented in peacetime since World War II. Read more: [HERE.](#)]

**The EU Commission that's unelected, that's over the EU parliament that is but it's just ceremonial, is saying they're gonna cancel elections anywhere that Elon Musk is involved, or anywhere they claim the Russians are involved with no proof. And they just cancelled the Romanian elections on December 6th, and they're saying, 'We'll do it in Germany if AfD wins'. I mean, this is real tyranny.**

We're brought up learning about Soviet tyranny and coups, and it certainly happened, and Romania stood against it, was a victim of it. But I don't see Russia today as the one doing this. I see the EU, I see NATO and I see hundreds of millions of my tax dollars going there. And I see attack of missiles raining down inside Russia and all the experts saying we're the closest nuclear war ever. And I see NATO blowing up the Nord Stream pipeline and devastating Europe's energy supplies and bringing Europe to the brink of economic collapse.

And then comes a former top diplomat and a Club of Rome expert and a UN leader. For people who don't know the positions he's had, because I know what the positions are, Executive Director of the UN Institute for the Global Sustainability Index, he's the expert. He can tell you, but, I mean, I at least know what it does. That's the index for the carbon and all the systems and the whole global government regimen of the ESG and the social credit score. I mean, that's the heart of their entire system, and he was the director of that. And that's a whole another topic, with the time we have I hope he gets into that; some of what he saw, what made him start going public many years ago when he was at the top of the UN and at the top of the club of Rome, it's the big think tank that advises them, it really directs them. I mean, that's who directs the WEF, all of it. We've told you for decades. The Club of Rome is at the top.

And this is just incredible. But, sir, Mister President, because I'm not just saying that as a colloquialism. I mean, you were elected. They admit you were elected by a large margin, and they just said, 'Well, we don't like him, he's suspended'. And now they admit NATO was behind it all and they're bragging about it, and taking over your [Romania's] military and your intelligence services. And then will they ever have elections again? It's like Zelensky cancelled elections and has been a dictator for a year and has banned his opposition, even opposition that's pro war, and shut down the Orthodox church.

So, I'm ranting here, sir, but you got cut off by the [advert] break. That's a hard satellite break. We had to do it. Will you recap and continue with the fact because I was about to say to you, you started saying that 5 minutes ago.

It seems to me cancelling the election results and openly bragging there's been a NATO-EU coup over Romania, something very fresh in the minds of Soviet coups. Fresh in the minds, you know, of your national experience. That that would backfire and is a sign of serious desperation if you look at the Hegelian dialectic subject. So, recap what you were saying. Go ahead.

CG: It is. So, Alex, the most important point is that, we, I mean, we have to know that this situation is not coming from now. I wish to [remind] all of you that [the] UN was born in 1945 with one simple goal, peace. So, from 1945 until today, was not anymore peace, and I have seen the situation inside.

As [an] insider, as [a] whistle-blower, as I am, I can tell you that never ever was not real a position in different meetings or conference or anyway - private one or under the other one, whatever meetings there are – we, they didn't discuss real about peace. Also [at the same] time was the position of the war. So, the situation is not quite new. I mean, they invest a lot in the war, everywhere. And we don't discuss only about Ukraine.

You know very well that a lot of conflicts and a lot of situations, dangerous situations, there are already in the world related with Syria, with Afghanistan, Iran, Iraq and many, many, many other places, particularly also Somalia, in Africa and many others. So as a whistle-blower, I can tell you exactly this, that never did they discuss about peace. The interest was war.

Why? Because, behind the war all the time is the financial and banking system. And the bankers are behind [it]. The bankers, they have interest to invest. They have interest after to invest in reconstruction. And, of course, they have interest to clean the corruption.

So, what the Romanian people, they did those days is that they expose the corruption. They expose the situation where we are right now as government, as state. And in the moment when we start to speak about peace, of course, they don't need this. They are alert. Exactly as I said, they are alert to the word “peace” because they need war.

Beside that I declare that I will be a President of [the] people, by the people, for the people of Romania. And, of course, they don't need the people to be present. They don't need the sovereignty of the people. They don't need the people to elect [for] themselves and to vote for themselves the person in order to represent them for welfare, for peace, for families.

When I said particularly, I want to be a president to protect the children, to protect the families - they're already alert because they need the society to be divided. And this is the most important point, which is not only Romania it's everywhere, as you know very well. So, for this reason, we are looking to President Trump in order to act about these situations and to give the real signal everywhere that the big shift and the change is already started.

And here we are, and there are a lot of peoples and countries which they're coming. You have seen also the situation in Africa, many countries, which they don't want to be anymore related with the colonist system, particularly from Europe. Look what is happening in Asia, what is happening also in Europe. So, there are a lot of places where we can see with our eyes that the people, they want to become again free, and this is very important for all of us.

**AJ: President, it's crazy. You're the president. They admit you're the president, and they just cancelled it. And now they're saying they're gonna do it in Germany and other places just normalising it. And they're saying, we have the military, and the EU Commission, as you know, was set up under trade cooperatives in 1947 and then 1956 with the Treaty of Rome. And it's really dictatorial, and now it's taken the mask off out of desperation.**

**But you hit something key. In the last few years, I've shown the German and French and British news, they say, get ready for a 20-30 year war with Russia. Our new economy will be based on war. We need this war. I mean, they're even in *La Figaro* and *Der Spiegel* and *The Times of London* admitting everything you just said. I mean, people that don't know, you are a very well-known established diplomat, high level UN official, high level Club of Rome. I wanna spend some of the time we have in your - please come back anytime, you've been very gracious - but in the 15 minutes we have left, where do you see this going with Romania? How? Because I agree long term, you guys will win. What are they trying to establish to submit their coup? And then the EU Commission is saying they'll just cancel German elections. What do you say to that? And then I wanna go into - so I've seen your interviews. I've seen you go public over the years about you're a good guy who wants peace, you're a well-respected person and you get into the Club of Rome, and you get into the highest levels of the UN governance system, and you find out what's happening and you start going public. And then you get into the human trafficking. You get into the all of it. If you can spend some time on that as well. So that's a lot of questions, but where do you see Romania going? I agree. Long term, you can only win. They've taken the mask off. Tyrants always fall. And then speaking to the Globalists, what makes them tick?**

CG: So, you know, we are accused, and I'm accused about the fascist, the Romanian people, but the real fascists are the Globalists and the oligarchs. And, of course, they cannot recognise this but step by step, the situation will be proven. Particularly also that, you know, this wave, as I said, started by the Romanian people, will not stop. It's a snowball effect which in fact will collect the whole world in the process of freedom, in the process of reinstall[ing] the democracy or real democracy. The participation of the people during the democracy, not only to call the people every 4 years and after that, you don't discuss about the people.

For this reason, I said, I wish to be a president of the people, by the people, for the people of Romania. And, of course, they don't need the people to participate in the process of democracy. And we expose, and this is very important, the corruption, which is inside the system. Which is not a system from the last, let's say, 35 years, particularly in Romania. We discuss also about another 45 [years] before 1989. So, there are almost 80 years of this communism, which in fact, the communist and the capitalism is more or less the same because they want to control the market. They want to control the people. They want to impose the big corporations in order to control the life of the people. And the people remain slaves in the position just to receive the salary and in fact to do exactly what they want. And all the system which was made in the world is wrong.

We have to change the system, not change the people. For this reason, my position was to change also the economy, the vision of economy. For this I wish to spread the private productive property everywhere, to spread the power of the people to each citizenship. Each citizen of Romania have to have power enough and to be free again and to be independent in a sense of economy. Each family to be grow up, to be held, and to and to be in the spirit of welfare and to communicate all of us.

Because, the last point is that, the people, they simply they don't receive the love from the state.

I am Christian Orthodox, and we know very well as Romanian people that, God protects us. And we believe in God. We believe in our land. So, we need love between us. We need to be together. We don't want to be separate. And exactly the system divides us. This is exactly the situation not only in Romania [but] everywhere. So here we are. And, of course, all the institutions, including the United Nations and others, they have to be rebuilt again, to rebuild in a sense of spirit of humanity. Because besides that we can lose the nation, we can lose the freedom, we can lose the humanity from us if we are not very, very strong right now.

So, I am very proud again that Romania is doing this step forward, and I hope, really, that, all the nations will follow.

**AJ: Well, I totally agree. I mean, how can you have the EU cancelling elections with NATO and saying they'll cancel the German election next? They've just revealed themselves. It totally discredits them. But just briefly, what do you think the process will be to removing the coup peacefully and then having you be the president or have a new election? I mean, what are you pushing for?**

CG: Well, I think I can tell you, Alex. Even our interview today, and there are a lot of pressure from outside, from international, let's say, social media. Okay? And also international, media as well, but also the pressure from the street. This puts them in the position that they have to revise their, let's say, their position. In a sense, to come back to the, let's say, to better understanding that the people, they don't come back home. They don't come back in their house. They simply they remain on the street, and permanently, they are looking for the second round [of elections].

And this is not only Romania. Probably you have seen there are many, many countries in Europe. We have seen in Paris. We have seen in, we have seen in Rome, in Italy. We have seen in Netherlands. We have seen in UK.

And everywhere, the Romanian people, they are on the street, and they ask with dignity for their freedom.

**AJ: It's incredible. It shows how desperate the Globalist army – look, they said Trump was a Russian agent. It turned out it was all fake and made up to try to remove him from office. I mean, I mean, this is insane. In the few minutes we have left, the 8 minutes we have left, can you speak to being at the highest levels of the UN and Club of Rome? Because I followed it, I'm aware of it, but kinda recap for listeners about what makes them tick, what their goals are, and just a snapshot of what you discovered.**

CG: Well, you know, I mean, [the] UN is, how I can say, is almost in a position of collapse. And the Club of Rome, as well. So, in my opinion, all these institutions are already, how I can say, control, not only from now, by oligarchs. Just to give you an example, the UN is very, very strongly related to its World Economic Forum in Davos.

So, whatever the World Economic Forum dictates, the UN follows. Which is amazing what is going on. And even to implement Agenda 2030, it's their mechanism in order to impose poverty, in order to impose the control of the people, in order to impose smart cities as you know very well. They want to impose also global warming and, of course, any major fire or flood will justify global warming. And, of course, all these things are not natural disasters and are, are man-made. And we know very well these things.

The planet, and all the world, they can give to us everything we need. But for sure, the planet cannot cover our greed or in fact part of the people which they control, the holy grail system which they try to control the greed, and they impose the situation everywhere.

The situation is almost changed, and nobody can stop this wave. Nobody can stop this wave. It's just a matter of fact.

So in in any case, even that the justice is not straight, is not the justice, in fact, the power of the people on the street and the pressure will impose that change ...

**AJ: I totally agree with you. The globalists are already beaten. They're just hanging on for as long as they can, but they know. Elon Musk said last week, the woke mind virus is dead. I said two weeks ago [that] globalism as a system is over. The question is, how much damage can they cause as we try to peacefully, remove them?**

CG: Yeah. The only thing which, I can tell you, of course - but I'm sure that, will not happen, but in any case, it's a dramatic situation - is to impose and to start the war in a sense, the Third [World] War in Ukraine. And the real door for this is Romania. Without Romania, they cannot control this war.

But already, the people on the street, they demonstrate to all of them that we don't play games. And for sure, I can tell you, Alex, that they are afraid more than the people are afraid about them. The fear is already in the system, which they didn't believe that the people can control the situation and the people to impose themselves, their democracy and their freedom. This is a real fear which the system has right now. And this is something that's ...

**AJ: Well, absolutely. They openly have a coup and said they're gonna have coups in Germany over the election. That is a totally discrediting end stage collapse of their system. And I meant to bring this up front, so I'm glad you raised it. Scott Bennett, great reporter, died when he came back from Ukraine just a few months ago, former army intelligence officer. He said 6 months ago on the show, look for Romania with NATO to be the detonator for full world war because there're Romanian troops in Ukraine, and if they don't like the way the elections go or things happen, they could do a coup in Romania. And then Romania could claim that Russia was doing something to them and then implement the article of NATO - was it article 5? - so that NATO could try to directly come in. Because, obviously, Ukraine is not officially part of NATO yet, but Romania is. General Flynn has warned of that, and now this has**

**happened. Are they trying to get full control of Romania to use it as the pretext to go to full war with Russia and bring NATO officially in?**

CG: I told you in the early beginning that the EU was to control NATO before the official nomination of President Trump on the 20th. So, this is very dangerous because already looks like it's divided in two. Because, simply, the position of President Trump was absolutely very clear. We are looking for peace. Was absolutely clear. And, of course, they try to push more and more in order to control the war before the nomination of President Trump.

**AJ: So, it's escalated out of his control.**

CG: Yeah.

So, you know, in the moment when they control, Mr. [Mark] Rutte, the chief of NATO, they try to impose their rules and to push how much is possible that the Third [World] War in the region via, particularly, via Romania. This is a more dangerous position which we have to face right now. Because they have slaves in this position of power. They have, power holders, they are not leaders. In fact, there are very few leaders in the world right now. And in Romania, they have just puppets. And via these puppets, they want to control the war and to impose the war how fast it's possible before President Trump's nomination on 20th.

**AJ: That's right. They're in a race to do it. In closing, 2 minutes left. How do people aid Romania in having their vote counted? It was here about America helping countries that are under tyranny. You're under an EU-NATO coup. They're bragging about it. How do we, follow your Party? You know, it's not election meddling – I've supported the Chinese peacefully protesting in Tiananmen Square in the late 1980s, and what happened there? I mean, this idea that it's meddling that we're against you having your election cancelled is just preposterous. This is so dangerous. How do we support what you're doing, and what else would you like to impart in closing?**

CG: So please spread everywhere. Please try to insist in the social media, particularly to this situation, and please try particularly to aware, the President Trump administration that the situation here is not very, easy. And this, I mean, for his mandate is a risk if they use Romania as a door to war. And this is the most important part because Romania is the most important part in this moment, in this game, in order to promote and to develop the war as soon as possible how they wish.

So, we have to be together, all of us, particularly social media, and thank you very much for this interview. Please also, spread everywhere this conversation which we had and also insist that a lot of people to be engaged in this situation and not only from United States, from all for the whole world. Thank you.

**AJ: President Georgescu, I can't wait till you become the president whether it's this month or a year from now, whenever it is. We stop nuclear war. And I wanna come visit your country. I've heard great things about it. We have a lot**

**of listeners there. But, absolutely, NATO admits they wanna use Romania as the trigger because it's already in NATO to go to war. This is madness.**

**People should follow you on X. Anywhere else they should follow you?**

CG: Just, I wish to say thank you again, and we strongly believe in God, which was permanently and he is with us. We strongly believe in God. We strongly believe in our land.

**AJ: Godspeed, President. Godspeed. Thank you.**
