EDAU IS DEMONETISING - PLEASE DO NOT BUY A PAID SUBSCRIPTION  
will be off Substack at the end of December.

Thank you for joining me for my third annual Christmas message. For new readers every year I write an article at this time that is personal and proclaims the Good of Jesus Christ.

## We were fearfully and wonderfully made.

EXCESSDEATHSAU · 13 DECEMBER 2023

[Read full story](#) →

## Morning has broken, like the first morning.

EXCESSDEATHSAU · 14 DECEMBER 2024

[Read full story](#) →

I did not write as much this year because I was going through rather a lot.

This year I was diagnosed with cancer.

I am now cancer-free.

Still feels weird to admit and I just want to put it behind me, but as anyone who has been in this position knows, it is a process with a temporal 'tail,' so the situation is ongoing. Every few months that pass I become more confident that I will be around to celebrate the 2,000-year anniversary of Christ's ministry here on earth, and the [2025 Sydney Eucharistic Congress](#).

Given that 2024 was the worst year of my life, to be diagnosed with cancer in April 2025 just as I was starting to get a bit better has been, to put it lightly, profoundly mentally damaging. While I am not completely out of the woods, I expect to be out soon.

I did not really want to say anything because I am not the focus of EDAU. However, I am a testimony to the fact that people who did not receive the covid vaccine can get cancer. I am not the only person in this situation, nor will I be the last.

Talented Tonika at [Visceral Adventure](#), another unvaccinated conspiracy analyst, has been very public about her cancer situation. I highly, highly recommend [reading her article](#). It is phenomenal and educational (or [edumacational – as she would put it](#) to the youths of today).

Unfortunately, my 2025 challenges were not limited to health issues. Like many other Australians, this year I was also the victim of a random attack in public that left me physically scarred and extremely pissed off. The perpetrators received a very light punishment and effectively have the blessing of the state legal system to hurt mo

people with impunity. The worst part about this situation is knowing that the vic will happen again, and it is likely next time someone will be killed.

As I have written about extensively, Australia is slated for destruction and the so compact has been broken. This Christmas, I would ask readers to please keep the families and souls of Emma Lovell, Linford Feick, Vyleen White, and all Australians murdered by street criminals, judges, and politicians in their prayers.

In these evil times, the evildoers especially prey upon people at their lowest point get them to submit to the new digital tyranny. Despite everything that happened to me, I did not submit to a digital ID or digital health records (which I originally opted out of years ago when they were introduced). At one point I was subjected to relentless pressure to get jabbed to receive healthcare. Of course I told them to go to hell, I would rather die than submit to their jabs.

They backed off.

One thing I do want to say about this year though (especially with the cancer), is any lingering misgivings I may have had about taking a principled stand in my life, what I believe in are completely gone. I no longer care what people think of me, if I offend, or if the government knows what I am saying or doing.

I am 100% done bullshitting around, wasting time, running, subterfuge, fence sitting or entertaining trolls in my daily life. If before I had 10% chill I am now at 0.

Every day of 2025 has been a struggle, and some days were, and still are, really damn hard. In a world of AI design, there isn't a lot of help from the system that is abusing and killing people. When people tell me 'oh just go and get counselling' I grimace. Counselling from a system that tried to inject me and violently excluded me from society? The system believes I am a dangerous conspiracy theory terrorist for having an opinion? The system that is still trying to jab me with their gene-vaccines?

Yeah – we all know how that 'therapy session' is going to end.

Australian psychologists are writing mainstream news articles about why people me should be shunned and locked up, and West Australians with opinions are sti being subjected to regular police raids and surveillance. Mr and Mrs Australia se nothing wrong with this. Like the covid response, it is to “keep us all safe.”

The psychological stress of life in Australia for those with an opinion is overwhe and, if I may, many could never deal with this level of tyranny when falling on ha times. I have received private messages from people in other countries saying - ‘i lived in Australia and I were you I would have caved a long time ago.’

For people who are also in this situation, I highly recommend the work of American clinical psychologist **Dr. Roger McFillin**. He is anti-pharma and anti-narrative, a fantastic writer, and has great guests on [his podcast](#).

This year, Satan became obscenely and intimately interested in me, not just in the form of material hardships but immense spiritual warfare in the form of extreme psychological torture. What happened between 2020-2024 was a cakewalk compared to what I experienced this year.

Satan threw up million-Watt roadblocks to discourage me from the Way.

Ol' Scratch failed.

In this Christmas message, I particularly want to let other unvaccinated people out there dealing with cancer (and other serious health issues) that you are not alone

you and understand what you are going through. What you are experiencing is real. I will not gaslight or victim-blame you. I deeply understand your profound isolation and grief. We endured years of tyranny and humiliation, resisted the job, lost everything and warned other people, only to get cancer. This is really sad and unfair and some days going on seems rather pointless. I get it. The loneliness is absolutely crushing.

I also wanted to send a message to victims of crime in Australia – not just the high profile cases but the people who are quietly enduring the physical, mental, and financial effects of the vile systemic evil that has enveloped our nation. Australia is being destroyed by a system that is evil to the core and includes the crime of murder by-judge where violent perpetrators are released on bail to kill and maim again.

Of course, we who fought the covid tyranny understand that the government will not save us, which extends to the judiciary, where crime is now ‘a good thing’ because criminals are unpunished. Crime is considered ‘good’ to the system because the system is inverted and evil - the laws are now immoral. This is what it really means to deal with the ‘powers and principalities’ of darkness, and is why what is happening is spiritual warfare, and why, in the end, all we can do is choose to make a stand every time Satan comes at us.

---

<sup>11</sup> Put on the whole armor of God, that you may be able to stand against the wiles of the devil. <sup>12</sup> For we do not wrestle against flesh and blood, but against principalities, against powers, against the rulers of the darkness of this age, against spiritual hosts of wickedness in the heavenly places. <sup>13</sup> Therefore take up the whole armor of God, that you may be able to withstand in the evil day, and having done all, to stand.

Ephesians 6:11-13 [NKJV](#)

---

The thing about life is that no one lives forever. As human beings, this is a strange and difficult concept to grasp, even though everyone reading these words will all have

experience, often accompanied by enormous physical and mental suffering. Jesus Christ, who is God, suffered both physically and mentally before He died in a way that has been described as [“beyond our imagining.”](#)

He is ridiculed; abandoned by his friends; and forced to sit, helpless, as his mother weeps. He experienced all the typical negative emotions we might experience in such torture: fear, sadness, anger, and so on. But we would feel them in a limited way, and at different times experience each one more or less. Our Lord experienced all of these to their maximum, and all of them at the same time. In both his body and his mind, then, Jesus suffers with an intensity possible only for the perfect man.

Still, his sorrow does not end there. Like us, Christ suffered in body, mind, and soul. And his spiritual pain would perhaps swallow even his physical and mental anguish.

Christ in the garden of Gethsemane. Arkhyp Kuindzhi (1901). Ukraine.

Dear friends, despite enormous physical, mental, and spiritual suffering in 2025, somehow the sun keeps rising every day and I am still here. So are you. Our earthly pilgrimages are not yet complete, our missions yet to be realised. I am honoured

walking with each one of you. Thank you to the people who supported me during time with messages – either on Substack or IRL. You know who you are. I love you

#

Finally, unless something changes in the next few weeks, this is likely to be my last message delivered via Substack and I will be leaving the platform at the end of December.

Today Australians woke up to the news that Substack will be complying with the eSafety legislation. This news was delivered via email. [Substack is not listed in the Australian government legislation of platforms that will be censored](#) but are chosen to comply with the legislation. Their reasons are their own.

## **Services that eSafety considers will be age-restricted social media platforms**

---

- [Facebook](#)

- [Snapchat](#)
- [Threads](#)
- [TikTok](#)
- [X \(formerly Twitter\)](#)
- [YouTube](#)

Hi there,

We wanted to give you a quick heads-up that in order to comply with the [Online Safety Act](#), Substack is introducing age verification steps for readers in Australia.

#### Here's what to know:

- **Your connection with your subscribers won't change.** The way you publish content for your audience remains the same. Your email list, publishing process, and relationship with your readers are not affected.
- Verifying your age is **required** to access the Substack app if you're in Australia. Once verified, readers can continue to enjoy the full Substack experience as usual.
- **Paid subscribers are already verified.** Anyone with a credit card on file (for example, paid subscribers) is already considered verified—no extra steps are needed.
- **Many readers are already verified.** Because all online platforms must implement age verification, some users may have already completed this through Stripe or Persona and won't need to do it again.
- **Your data is private.** The verification process is secure and handled by trusted providers like Stripe and Persona.

We're complying with the Online Safety Act and are working to make this transition as smooth as possible for everyone. Please visit [our policy page](#) for more information on how the Online Safety Act may impact your content.

You can check your verification status [here](#). If you'd like to encourage your subscribers in Australia to verify their age and avoid any interruptions, you can share the following message:

Australia's **Online Safety Act** is requiring platforms like Substack to introduce age verification for readers.

Verifying your age is required to access the Substack app in Australia. The process is secure and handled by trusted providers like Stripe and Persona.

To avoid any interruptions in seeing the great stuff on Substack, make sure you verify your age. For details on how to verify your age, or if you have questions, please visit Substack's [support page](#).

Thanks for everything you do to help make Substack the home for great culture,

Standards and Enforcement @ Substack

For all their screeching about free speech, Substack have proven themselves to be absolute cucks. As the platform devolves into AI slopulism, they will reap what they have sown. A new Hundred Flowers Campaign for the lowest common denominator: the techbros ride off into the sunset with their beautiful new future, ruling over the ashes.

I am able to send you this final message without providing 'age assurance' (biometric digital ID, government ID) because I am still able to log in via Stripe – the proxy assurance. Once I disconnect Stripe from my Substack at the end of December, I will be removing my content from Hamish McKenzie's website. As I have been saying for many months, disconnecting Stripe from Substack elicits a financial chain reaction that causes automatic pro-rata payments to paid subscribers. Had I not been demonetising since July, I would be in severe financial hardship right now.

Successful Australian Substack authors with a 'tick' next to their names who are waking up to the reality in which we find ourselves and want to escape better homes than they have enough to cover the payouts.

Many people have asked me if they are able to download, mirror, or upload my articles to other sites. My answer is a resounding YES.

I wrote these articles for you.

Relatedly, all my articles and embedded contents are downloaded offline in triplicate and stored in EMP-proof pouches. I will also be printing the information into a physical library. It is my hope that our grandchildren will pull their contents from the smoking crater to teach others – and their children, and their children's children about the great COVID democide of 2020.

No doubt, they will still be experiencing the effects. (In particular, I often wonder about the female children born to vaccinated mothers).

For motivated readers, I have linked all my articles and the archive links below. I do whatever you like with them.

If you are receiving this email in your inbox, I have your email downloaded offline. If you decide to move to another platform or set up my own website, you will begin receiving emails from me in what hopefully will be a smooth transition.

During my time on Substack, I published Australia's Novavax contracts after the Senate voted not to release them, and using West Australian state parliamentary documents, discovered who in state government was responsible for watching the vaccine injuries roll in for months under 'covid zero' before mandating. I also developed a lexicon for covid democide that outlined perpetrators and victims. We entered uncharted waters globally and needed someone to define the scope and scale of what we were seeing.

I also connected the dots with US military Operation Warp Speed in the earliest stages of Australia's covid response, solidifying that this was an international military biodefence response, not a health event.

I gave a platform to the voiceless around the world, reaching readers in over 100 nations.

However, apart from the Good News of Jesus Christ, the most important message I have ever delivered to readers over the past few years is that no one is coming to us. Not government, not the courts, not your petitions, not voting, no one. The only thing we have is our will and the courage to choose not to participate. The more people who decide they have had enough, that they will no longer comply with what is happening, that they will shut it all down, the quicker the oppressors will be forced to listen to our demands.

May God bless all of you mightily, in Jesus' Holy Name. Amen.
